**Zero Point (Faster than Light Speed)** J. Lawrence Parry, 2023-02-13 Zero Point - Faster Than Light Speed: is intended for men and women in all walks of life who are striving to understand the UFO phenomenon and recent developments which are about to appear on our near future horizon. We are going to need to know where and how to react to these changes. If you look a little at TV, for example, you can see that 'ETs' are making their way slowly into our lives. Our children's cartoons are a good example. This book will expand your mind and possibly your lives when you fully understand how really far we've come in the last 50 + years. Next time you see a Tic Tac zooming on a news report and you hear the old cliché We don't have anything that travels that fast! Or, How do they turn like that at such high speeds You'll realize someone is definitely not telling the truth. In the very near future, you will be able to see, in everyday life, the type of Hover board used by Michael J. Fox in the film Back to the Future 2. Our cars and trains will even be hovering and super cool electrical like we've only dreamed. No more roads, no more gas, no more heavy trucks or busses tearing up the pavement. We need to start planning on how to take advantage of all the new technology our near future will provide. Think about Zero Point as a simple glimpse

of the future, whereby you may master your future instead of allowing the future to dictate to you. Thank you, J. Lawrence Parry
