La sociología en Colombia Gonzalo Cataño,1986

Revista colombiana de sociología ,2000

Introducción a la sociología del derecho Roger Cotterrell,2023-12-01 El libro se concibió en la creencia de que el estudio sociológico del Derecho sobrepasa cualquier límite jurisdiccional. La Sociología del Derecho debería proporcionar las bases de un entendimiento de aquellas transformaciones del Derecho y la sociedad, que son más fundamentales que los particulares cambios jurídicos que ocurren en un ordenamiento concreto; debería proveer de una más amplia perspectiva, dentro de la cual un estudio jurídico comparativo pudiera reportar un rico conocimiento del contexto social del cambio jurídico. Al escribir el libro, impuse mi propio método de análisis sobre un amplio y disperso conjunto de materiales, y esboqué ciertas ideas teóricas propias, entre las que destacan una específica concepción de la naturaleza de la ideología, y, por ende, de la ideología jurídica. Dicha concepción se usa en el texto, para criticar la teoría marxista, para analizar las condiciones de aceptación popular del Derecho, para examinar algunos aspectos del profesionalismo jurídico, y especialmente para desarrollar una interpretación del papel de jueces y tribunales. Aunque la literatura de Sociología del Derecho ha crecido rápidamente, y mis ideas han evolucionado desde que escribí el libro, pienso que sus estructuras analíticas fundamentales siguen siendo válidas. Roger Cotterrell.

La ciencia de la investigación cualitativa Packer, Martin,2018-09-18 “Las ciencias sociales y del comportamiento necesitan con urgencia este libro. De hecho, debería ser lectura obligatoria para cualquier persona que esté estudiando seriamente los métodos o las metodologías. Es una verdadera hazaña haber reunido en un solo tomo a las figuras prominentes, los problemas difíciles y las soluciones imperfectas que plagan los varios tipos de indagación. La investigación cualitativa tenía el propósito de subsanar muchos de estos males, pero, como Packer señala contundentemente, el dualismo oculto de este enfoque de investigación ha evitado que tome conciencia de todo su potencial, lo que ha llevado a que hagamos caso omiso o malentendamos no solamente importantes modos de investigación sino vitales formas de vida. Con este agudo análisis como escenario, Packer redefine la investigación cualitativa por medio de la explicación de nuevas maneras de estudiar la vida y las formas de vida, todo con una prosa elegante, clara y accesible.” Brent D. Slife, Brigham Young University, Estados Unidos Esta segunda edición ampliada, actualizada y corregida hace una original exploración de la

investigación cualitativa en las ciencias sociales y pregunta por qué hacemos este tipo de investigación, para después dar una respuesta. En lugar de ofrecer instrucciones sobre cómo hacer una investigación cualitativa, La ciencia de la investigación cualitativa analiza las diversas raíces de este tipo de investigación —incluyendo la fenomenología, la hermenéutica y la teoría crítica— para hacer un diagnóstico del estado actual de la disciplina y recomendar una alternativa. Packer sostiene que actualmente gran parte de la investigación cualitativa usa el dualismo mente-mundo, que es típico de la investigación experimental tradicional, y sugiere que es preferible concentrarse en la constitución: la relación entre una forma de vida y sus miembros. La ontología histórica de nosotros mismos de Michel Foucault es la base del nuevo enfoque de Packer. Esta segunda edición cuenta con actualizaciones de los capítulos de la primera edición y uno completamente nuevo que ahonda en la discusión sobre cómo poner en práctica el concepto de Foucault.

Globalización, tiempo, espacio y poder Ximena Agudo Guevara,2000

Fundamentos de teoría sociológica Antonio Lucas Marín,1995 El inicio de la reflexión sobre el concepto de la Sociología no puede ser con otra perspectiva que la historia. Si bien una ciencia será estéril si sólo estudia a sus padres fundadores, si no los estudia será una ciencia perdida. Por eso, parece que para delimitar el concepto de nuestra disciplina, no hay mejor cauce que ir repasando las aportaciones de aquellos que la comunidad de sociólogos considera sus antecesores hasta nuestros días. Después de Kuhn y de las precisiones de la Sociología de la ciencia iniciada por Merton, es difícil discrepar de la consideración de que la Sociología es lo que hacen los sociólogos. Es en la continuidad de esta tarea acumulativa donde debemos encontrar significado a la propia aportación personal. Debemos ver las condiciones que han hecho posible el nacimiento de la Sociología, como disciplina intelectual y como toma de conciencia de la sociedad industrial, y considerar la existencia histórica de diversas posibilidades de soporte personal e ideológico, que han dado lugar a diferentes teorías y escuelas en pugna. Las conclusiones van por el lado de ver en la Sociología una dedicación al estudio de los sistemas de acción social, entendidos en un proceso de dialéctica social y en una tradición científica y progresista, que intentan precisar tanto la influencia de la estructura social como una valoración persistente de la libertad.

Quiet Genocide Etelle Higonnet,2011-12-31 Quiet Genocide reviews the legal and historical case that genocide occurred in Guatemala in 1981-1983. It includes the full text of the genocide section of a United Nations sponsored Commission on Historical Clarification in Guatemala (CEH), brokered by the UN. In its final report, the CEH's rigorously reviewed abuses throughout the whole country. However, the memory of the Guatemalan dirty war, which predated the genocide and continued for over a decade of the heightened killing, has rapidly faded from international awareness. The book renders a

historical picture of the 1948 Genocide Convention and its unique status in international law. It reminds readers of the difficulty of preventing and punishing genocide as illustrated by the ongoing tragedy of Darfur; and discusses the evolution of international and hybrid tribunals to prosecute genocide along with war crimes and crimes against humanity. Then, it sketches a brief history of Guatemala with a focus on genocide. It explores how internal and global politics were an expression of structural violence, designed to ensure cheap, abundant, and quiescent Indian labor for coffee planters. The volume provides the commission's general considerations, legal definitions, methodology, period of analysis, and victim groups, and finds that genocide had been perpetrated against five indigenous Guatemalan groups. By translating the genocide argument of the CEH into English and framing it in a lively, accessible way, this volume recovers the past, sets the record straight, and promotes accountability. This exploratory effort provides insight into the world of transitional justice and truth commissions, and valuable insights about how to engage with the question of genocide in the future. These findings shed light on a crucial and dark chapter of trans-American Cold War history, and will thus be of interest not only to scholars focused on Guatemala, but also on Central America and even more broadly, on the Cold War.
