**Why Are Student Athletes Funding Your Future?** Dr. Ernest E. Cutler, Jr.,2016-01-05 Scholarship shortfalls persist, leaving NCAA scholarship student-athletes to pay hundreds and sometimes thousands of dollars for additional educational expenses not covered by their current athletic scholarships. Meanwhile, NCAA campuses continue to generate money from the sale of apparel and other merchandise featuring star athletes. In this detailed study, Ernest Cutler explores the troubling history of money changing hands, with none of it going to student athletes who are for some reason considered amateurs that should not be eligible for payment. He also takes a careful look about what such a system says about academic values and educational institutions, as well as how the system contributes to infractions by student-athletes, coaches, and athletic administrators. This research study is not intended to disrespect the NCAA, but it does seek to serve as a tool to change problematic policies that infringe upon the rights of current, former, and future student athletes.

**The Economy of Saudi Arabia in the 21st Century** John Sfakianakis, 2024-05-11 This book is about Saudi Arabia's efforts to overhaul its economy and the numerous prospects and challenges it faces in doing so. As one of the world's leading oil producers, the outcomes of the most ambitious wave of reforms Saudi Arabia has ever undertaken will provide valuable lessons not only for the kingdom itself but also for other oil-dependent and resource-based economies. Since 2016, Saudi Arabia has embarked on an unparalleled economic - if not social and political - transformation project with an ultimate aim of diversifying away from oil. New sources of growth such as tourism, industry, and entertainment have been identified, but it remains to be seen whether these will be enough to sustain the economy in the post-oil era. Reforms, including lowering energy subsidies, instituting VAT, and introducing indirect taxes on labor and businesses, have already produced notable results. Looking ahead, the economy requires rigorous and continuous processes of severe competition amongst its private sector participants as well as strong institutions. It also requires creative destruction to be allowed to run its course within the wider economy. The economic reform experiment undertaken by Saudi Arabia remains the most sweeping among

emerging market economies - and certainly in the entire Middle East. The changes are all encompassing and involve a complex redrawing of the political, economic, religious, and social map.

*Promotion of Human Rights of Older Persons*, 2014 The Committee of Ministers adopted Recommendation CM/Rec(2014)2 to member States on the promotion of human rights of older persons on 19 February 2014. The recommendation applies for the first time a human rights-based approach to the situation of all older persons, with a view to ensuring that they enjoy their fundamental rights and freedoms on an equal basis with other people. The recommendation acknowledges and promotes the autonomy of older persons and, at the same time, it aims at ensuring them protection in societies where ageism is on the rise and in situations where they may be vulnerable. The principles contained therein are illustrated with examples of good national practices in Council of Europe member States. The recommendation should serve as a reference for governments, non-governmental organisations, practitioners and all those who are otherwise involved or interested in protecting and promoting the human rights of older persons.--Publisher.
