Curry, Curry, Curry Rajnit Rai, 2000-10-14 The curry goes international with a vengeance in this wide-ranging collection of recipes, not a few of them originals. Beginning with curried soups (starting, inevitably, with that hoary Raj relic, mulligatawny), Rai goes on to give a good selection of vegetable, meat, fish, chicken, and rice-based curries. A bonus to those who find curry-making too time consuming are three basic sauces: Persian, Mughal and Madras, which can be fridge-stored to make an “instant” curry. Another boon to the harried cook is the clarity with which Rai sets out his recipes—measurements are provided in metric, British and American systems and each curry progresses from “singlefry” (Rai’s term for that tricky process of bhunao) masala, through “follow-up” and “during cooking” masalas to “finishing” masala and “garnish” masala... With sections on raitas, accompaniments, this is a tempting medley of curried concoctions, with not only “heart”, but plenty of soul.’

The Curry Cook's Assistant Daniel Santiagoe,1889

Curry Elizabeth M. Collingham,2005 This book tells the history of India and its rulers through their food. It follows the story of curry as it spread from the courts of Delhi to the bath houses of Birmingham, from the uffin-carriers of Bombay to the army canteens of Japan. Curry is the product of India's long history of invasion. In the wake of the Mughal conquerors, an army of cooks brought Persian recipes to northern India; in the south, Portuguese spice merchants introduced vinegar marinades and the chillies they had recently discovered in the New World; the British soon followed, with their passion for roast meat accompanied by cauliflowers and beans. When these new ingredients were mixed with native spices such as cardamoms and black pepper, they produced those distinctively Indian dishes - biryani, vindaloo and jalfrezi. Almost every Indian dish is the product of such a fusion of different food traditions. *Curry: A Biography* tells the story of an array of familiar Indian dishes and the people who invented, discovered, cooked and ate them. The British relished the kaleidoscope: indiscriminately, they called everything 'curry' and took it back to Britain, where it became a staple of the Victorian dinner party. Later, after the Second World War, Bangladeshi seamen, by opening Indian restaurants and take-aways in London's East End, helped to make curry Britain's new national dish. Curry teems with colourful characters, from Elizabeth Gwillim's Indian servants who refused to serve hare for a dinner party, to culinary rivalry between the courts of Lucknow and Delhi; from the Rajah who loved roast black rat, to a young Gandhi surviving in London on a diet of porridge.--BOOK JACKET.
