Committed Sensations - An Initiation to Homosexuality Andreas Frank,2020-04-09 Same-sex relationships have always existed and will always exist. That is normal. For several years, social research has dealt extensively with same-sex partnerships of lesbian and gay couples as well as with homosexuality and the coming-out of young Lesbians and Gays. This Handbook and Compendium Committed Sensations is not only about help and ways for a personal coming-out and a successful identity development with regard to everyday questions like how to build up a network of queer friends, but at the political level it also summarizes topics like e.g. gay-lesbian family politics, state marriage and church weddings - and as well it is about fostering discussions for the central keynotes of lesbian and gay couples within the last 50 years of gay-lesbian movement. From the content: @ Young people's Coming-Out @ How to introduce the friend to parents and in-laws @ Marriage and family policies for same-sex partnerships and their children @ Design of a modern queer/human theology @ Gender as a social construction @ For the homosexual, the private is political: politics for same-sex couples in the Parliament @ Homosexuality is a mature variant of human sexual behavior that is equivalent to Heterosexuality @ Social reporting on Lesbians, Gays and their long-term marriages @ Intimate communication: let's talk about Condoms, PrEP and Safe Sex @ Marketing & Online-Dating-Apps for Gays and Lesbians @ Identity as a statement on yourself @ Loyalty in relationships: The majority of Gays live together with a boyfriend in their apartment. 38 percent of gay men lead their relationship even for more than 10 years @ Church wedding and wedding ceremonies with partnership blessings of same-sex couples @ Lesbians, Gays and same-sex partnerships as a topic at school.

History, Women and Gender in the Modern Middle East Lisa Pollard,Mona L. Russell,2023-12-20 This introductory text explores the gendered history of the modern Middle East, from the eighteenth century to the present, studying the various ways in which gender has defined the region and shaped relations in the modern era. The book captures three aspects of change simultaneously: the events that mark the “modern” Middle East, women’s encounters with the transition to modernity and gendered responses to modernity. It contains both new fieldwork and a synthesis of secondary scholarship that highlight the role of gender in the modernization of Egypt, Turkey, Iran, the Levant and the Persian Gulf states. Chapters are organized chronologically to chart the rapid developments of the modern era, but each chapter also stands on its own, with

coverage of masculinity and femininity, sexuality, marriage and the family, labor and women's contributions to Arab Spring uprisings. Through this comprehensive account, the book pushes back on stereotypes that the Middle East is an ahistorical region and that women have not been vital actors in the process of change. Richly illustrated and accessible for a variety of readers, *History, Women and Gender in the Modern Middle East* is an ideal resource for undergraduate and postgraduate students in gender studies and Middle Eastern history.

Queer Sites in Global Contexts Regner Ramos, Sharif Mowlabocus, 2020-12-29 *Queer Sites in Global Contexts* showcases a variety of cross-cultural perspectives that foreground the physical and online experiences of LGBTQ+ people living in the Caribbean, South and North America, the Middle East, Europe, and Asia. The individual chapters—a collection of research-based texts by scholars around the world—provide twelve compelling case studies: queer sites that include buildings, digital networks, natural landscapes, urban spaces, and non-normative bodies. By prioritizing divergent histories and practices of queer life in geographies that are often othered by dominant queer studies in the West—female sex workers, people of color, indigenous populations, Latinx communities, trans identities, migrants—the book constructs thoroughly situated, nuanced discussions on queerness through a variety of research methods. The book presents tangible examples of empirical research and practice-based work in the fields of queer and gender studies; geography, architectural, and urban theory; and media and digital culture. Responding to the critical absence surrounding experiences of non-White queer folk in Western academia, *Queer Sites in Global Contexts* acts as a timely resource for scholars, activists, and thinkers interested in queer placemaking practices—both spatial and digital—of diverse cultures.
