**21 Day Inspirational Journal** , This FREE 21 day journal is an unconventional, non philosophical, and fun way to track your journey to a life filled with more passion. If you're asking why 21 days? Neurological research has shown that it takes 21 days to fully cultivate a new habit because 21 days is the time required for new neuro-pathways to be fully formed in your brain. This journal can be accompanied with the "UNOfficial Guide to Achieving Your Goals", which is available for sale on Amazon.com. The daily quotes written in this journal are taken directly from that guide and are intended to motivate, inspire,

and provide you with tools for achieving your goals. There are also three daily questions to help generate thoughts towards a more successful life. If the daily quotes inspire you to write about other things, feel free to put down whatever you want in your journal. The main objective is to have fun, reflect, and learn something about yourself and the life you desire to have.

*Integrating the Expressive Arts Into Counseling Practice, Second Edition* Suzanne Degges-White, Nancy L.

Davis, 2017-09-28 When I used it, I felt it was a very valuable resource, linking work with the arts to the theoretical foundations of counseling.--Sally S. Atkins, EdD Professor Emerita Founding Director of Expressive Arts, Appalachian State They [Students] like the activities since it helps them learn more about the counseling theory which was discussed in the Theories of Counseling class. It provides more application. Some activities are pretty detailed and class time does not allow for much practice. But, we discuss how this could be used in therapy sessions/groups... [The book] is short and very pointed in its information and use. We like it!--Judy A. Schmidt, EdD, CRC, LPCA University of North Carolina at Chapel Hill Expanded and revised to reflect a broader understanding of the complementary approach to therapeutic treatment, this is the only text to integrate expressive arts counseling techniques with major theories of counseling and psychology. Substantial changes to the second edition include new chapters that address Neuroscience and Counseling, Trauma-Informed Counseling, Animal-Assisted Therapy, Mindfulness and Counseling, and Family Counseling, along with a greater emphasis on cultural and diversity considerations throughout. The book is updated with over 30 new interventions including animal-assisted and videographic interventions, and new information about the neuroscientific foundations of expressive arts therapies. Updated references in each chapter, and a suite of Instructor's Materials also add to value of the second edition. The text integrates expressive arts therapies with 12 commonly used treatment modalities. Each chapter reviews a particular theory and describes how expressive and creative techniques can support and be easily integrated within that orientation. Over 90 field-tested, step-by-step interventions—created by leading practitioners—offer students and clinicians techniques that can be put to use immediately. New to the Second Edition: New chapters address Neuroscience and Counseling, Trauma-Informed Counseling, Animal-Assisted Therapy, Mindfulness and Counseling, and Family Counseling and the Expressive Arts. Cultural and diversity considerations in each chapter. Updated with new references. Over 30 new interventions including videography. Instructor's materials.
