

Lizards Hold The Sun

Marco Cascella

Lizards Hold the Sun Dani Trujillo, 2023
Xiomara Chavez has dedicated her life to the preservation of her Mexican homeland. One of hundreds of applications, she alone was selected to lead the creation of the Bunchberry Tribal Museum. Faced with her remote project ever, Xiomara must rely on the help of Calehan, the aloof museum architect. Sparks fly in the archives as Xiomara struggles to refrain from dating in the workplace. Thrown among ancient artifacts, shooting stars, and cultural obligations, Calehan and Xiomara must decide if they belong to each other or if the responsibility to their tribes and families are where they must be.

Never Whistle at Night: An Indigenous Dark Fiction Anthology Shane Hawk, Theodore C. Van Alst Jr., 2023-09-19
NATIONAL BESTSELLER A bold, clever, and sublimely sinister collection that dares to ask the question: "Are you ready to be un-settled?" Featuring stories by: Norris Black • Amber Blaeser-Wardzala • Phoenix Boudreau • Cherie Dimaline • Carson Faust • Kelli Jo Ford • Kate Hart • Shane Hawk • Brandon Hobson • Darcie Little Badger • Conley Lyons • Nick Medina • Tiffany Morris • Tommy Orange • Mona Susan Power • Marcie R. Rendon • Waubgeshig Rice • Rebecca Roanhorse • Andrea L. Rogers • Morgan Talty • D.H. Trujillo • Theodore C. Van Alst Jr. • Richard Van Camp • David Heska Wanbli Weiden • Royce Young Wolf • Mathilda Zeller Many Indigenous people believe that one should never whistle at night. This belief takes many forms: for instance, Native Hawaiians believe it summons the Hukai'po, the spirits of ancient warriors, and Native Mexicans say it calls Lechuza, a witch that can transform into an owl. But what all these legends hold in common is the certainty that whistling at night can cause evil spirits to appear—and even follow you home. These wholly original and shiver-inducing tales introduce readers to ghosts, curses, hauntings, monstrous creatures, complex family legacies, desperate deeds, and chilling acts of revenge. Introduced and contextualized by bestselling author Stephen Graham Jones, these stories are a celebration of Indigenous peoples' survival and imagination, and a glorious reveling in all the things an ill-advised whistle might summon.

Toward Robert Frost Judith Oster, 1994-02-01
Every poem, Robert Frost declared, is an epitome of the great predicament, a figure of the will braving alien entanglements. This study considers what Frost meant by those entanglements, how he braved them in his poetry, and how he invited his readers to do the same. In the process it contributes significantly to a new critical awareness of Frost as a complex artist who anticipated postmodernism--a poet who invoked literary traditions and

conventions frequently to set himself in tension with them. Using the insights of reader-response theory, Judith Oster explains how Frost appeals to readers with his apparent accessibility and then, because of the openness of his poetry's possibilities, engages them in the process of constructing meaning. Frost's poems, she demonstrates, teach the reader how they should be read; at the same time, they resist closure and definitive reading. The reader's acts of encountering and constructing the poems parallel Frost's own encounters and acts of construction. Commenting at length on a number of individual poems, Oster ranges in her discussion from the ways in which the poet dramatizes the inadequacy of the self alone to the manner in which he reads the Book of Genesis or the writing of Emerson. Oster illuminates, finally, the central conflict in Frost: his need to be read well against his fear of being read; his need to share his creation against his fear of its appropriation by others.

Lizards David P. Badger, 2002 Looks at the behavior and physical characteristics of twenty-nine lizard species.

Robert Frost Morris Dickstein, 2010 This title presents in-depth critical discussions of his life and works. Widely celebrated during his lifetime as the greatest living American poet, Robert Frost remains one of the few poets whose work is enjoyed by scholars and general readers alike. A record four time winner of the Pulitzer Prize who gave readings across America and in countries as far flung as England, Brazil, and Russia, Frost is nevertheless known not as a cosmopolitan but as a plainspoken portraitist of rural New England. Yet despite this reputation, Frost is much more than a regional poet: his wit, irony, and willingness to rest in ambiguity make him a poet of the cosmic and universal. In the age of Ezra Pound and T. S. Eliot, he stood alone in writing a poetry that was simultaneously accessible, complex, and profound. Edited and with an introduction by Morris Dickstein, Distinguished Professor of English at the Graduate Center of the City University of New York and senior fellow of the Center for the Humanities, this volume in the Critical Insights series brings together a variety of critical perspectives on Frost's life and works. For readers new to Frost, four original essays provide valuable context for understanding and assessing his work. Together they outline the work's historical and cultural contexts, survey the major pieces of Frost criticism, examine Frost's relationship with modernist poetics, and consider how his use of paradox and contradiction participate in and differ from the use established by Whitman and Emerson. Nine other previously published essays deepen readers' understanding and offer a sampling of the key concerns of contemporary Frost critics. Among these essays, David Sanders draws on Frost's letters and interviews to understand how he developed his poetic voice from careful observation of his New England neighbors and how he sought to make these people visible within the growing mass culture of twentieth century America. Roger Gilbert further examines Frost's poetics in his discussion of the recurrence of the trope of the walk in Frost's poetry, concluding that, for Frost, the trope parallels the dynamic act of poetic composition. Other essays examine Frost's politics, with Frank Lentricchia considering how his poetry, with its emphasis on replicating the

rhythms of everyday speech rather than traditional conceptions of the literary, gives evidence to the notion that poetics can be a register of social and political change, and Tyler B. Hoffman offering a unique reading of Frost's view of industrialism and the New Deal, arguing that Frost was not the archconservative that leftist critics have made him out to be but rather took a highly nuanced view of the poet's obligations to politics. Jeff Westover extends this vein of criticism by dissecting Frost's nationalism, and Robert Bernard Hass discusses how Frost's interest in science, especially astronomy, impacted the religious beliefs his mother inculcated in him as a child. Uniquely, this volume also contains an original piece by Paris Review contributor Elizabeth Gumpert, who offers a writer's perspective on Frost's fierce independence. Rounding out the collection is a brief biography and chronology of Frost's life and an extensive bibliography for readers wishing to study the poet's work in greater depth. Each essay is 5,000 words in length, and all essays conclude with a list of 'Works Cited', along with endnotes.
