

Madonna Dei Poveri Seminara

Mario Caligiuri

Black Madonnas Lucia Chiavola Birnbaum, 2000 In the 1993 edition, I considered black madonnas a metaphor for a memory of the time when the earth was believed to be the body of woman and all creatures were equal, a memory transmitted in vernacular traditions of earth-bounded cultures, historically expressed in cultural and political resistance, and glimpsed today in movements aiming for transformation. Since then my understanding of black madonnas has been deepened by genetics finding that the origin of modern humans is Africa, that migrations from Africa carried a primordial belief in a dark woman divinity to all continents. Black madonnas and other dark women of the world suggest a metaphor for healing millennial divisions of gender and race and concerted movements for justice.

Mary in Our Life Nicholas Joseph Santoro, 2011-08-12 Mary In Our Life: An Atlas of the Names and Titles of Mary, The Mother of Jesus, and Their Place in Marian Devotion presents the 1,969 names, titles, and appellations used to identify the Blessed Virgin Mary over the centuries in terms of their history and related events. Within these titles and their history can be seen the official and private attitudes and prejudices of the times; government pressures, conflicts, and interdictions; internal problems within the Catholic Church; and startling examples of dedication, devotion, and piety. Taken together, Marian titles are a real-life story of the Catholic faith.

New Metropolitan Perspectives Francesco Calabrò, Lucia Della Spina, María José Piñeira Mantiñán, 2022-08-24 The book aims to face the challenge of post-COVID-19 dynamics toward green and digital transition, between metropolitan and return to villages' perspectives. It presents a multi-disciplinary scientific debate on the new frontiers of strategic and spatial planning, economic programs and decision support tools, within the urban-rural areas networks and the metropolitan cities. The book focuses on six topics: inner and marginalized areas local development to re-balance territorial inequalities; knowledge and innovation ecosystem for urban regeneration and resilience; metropolitan cities and territorial dynamics; rules, governance, economy, society; green buildings, post-carbon city and ecosystem services; infrastructures and spatial information systems; cultural heritage: conservation, enhancement and management. In addition, the book hosts a Special Section: Region United Nations 2020-2030. The book will benefit all researchers, practitioners and policymakers interested in the issues applied to metropolitan cities and marginal areas.
