International Investment Protection and Constitutional Law Stephan W. Schill, Christian J. Tams, 2022-11-25 This book develops a conceptual framework that captures not only the tensions between constitutional values that are common to liberal democracies - human rights, democracy, and the rule of law - and the investment treaty regime, but also the potential for co-existence and complementarity.

A case study on the ecosystem for local production of pharmaceuticals, vaccines and biologicals World Health Organization, 2024-05-06 The Local Production and Assistance (LPA) Unit in the Regulation and Prequalification Department (RPQ), Access to Medicines and Health Products Division (MHP), WHO, supports Member States, particularly low- and middle-income countries (LMICs), to strengthen sustainable local production and technology transfer to improve timely, equitable access to quality, safe and effective essential medical products. The LPA Unit provides assistance and support to Member States with an ecosystem-wide and holistic approach, such as fostering global coordination and partnerships, conducting ecosystem assessments for sustainable, quality local production, developing and implementing strategies/roadmaps, providing comprehensive capacity building and technical assistance, including for WHO Prequalification (PQ)/Emergency Use Listing (EUL), facilitating technology transfer (TT) and developing global resources on local production and TT. A landmark resolution WHA74.6 on strengthening local production of medicines and other health technologies to improve access was adopted in the Seventy-fourth World Health Assembly, signalling globally the important role local production plays in improving access and strengthening health security. Within this mandate, the LPA Unit, developed a series of case studies on the ecosystem for local production of pharmaceuticals, vaccines and biologicals, with a focus on country context in the low- and middle-income countries. These case studies add to the existing repository of resources on strengthening local production and technology transfer of health products for countries to leverage upon when

countries embark in these areas. The countries in this series are Bangladesh, Kenya, Nigeria, Pakistan, Senegal and Tunisia. From June to September 2022, a series of interviews and consultative meetings, including a review of available literature, policies and other documents, and administration of a questionnaire, were performed. This case study is intended to report the collated information in areas such as available policies, initiatives, financing, regulatory system, patent protection system, research and development work, markets and capacity and preparedness to uptake local production of quality-assured pharmaceuticals, vaccines (including mRNA vaccines) and biologicals. Stakeholder perspectives on the expectations and needs of countries were also collected and included in the case studies, along with proposed recommendations, for the reader to see various viewpoints towards strengthening sustainable local production and achieving universal health coverage and the Sustainable Development Goals.

Groundwater Raya Marina Stephan, James E. Nickum, Philippus Wester, 2023-02-21 Groundwater is invisible, but its impact is visible everywhere. Everything around us relies on groundwater, our drinking water and sanitation, our food supply and our natural environment. Yet because it is invisible, information, management and governance of groundwater is often poor and inadequate. This book contributes to UN Water Groundwater year (2022), and to the effort of “making the invisible, visible”. Through worldwide case studies ranging from the Americas (California, Brazil), to Asia (India, Iran, Lao PDR, Nepal), Africa (Malawi, Tanzania, South Africa) and the MENA region (Lebanon, Morocco, Yemen), including cases of transboundary aquifers, the chapters in this edited volume reflect important recent advances in interdisciplinary knowledge on the governance, management, practice and science-policy interfaces of groundwater. An insightful resource for researchers and planners in the field of environmental policies, water laws, climate change and groundwater governance, this book comes with a new Introduction. The other chapters were originally published in Water International.

L'État candidat à l'Union Européenne Lendita Memeti-Kamberi, 2013-01-01 Cet ouvrage traite des aspects juridiques d'un État candidat à l'adhésion à l'Union Européenne. Fondée sur une analyse générale de l'évolution des conditions d'adhésions et des relations qui lient l'État candidat à l'UE, avec une attention particulière consacrée à la stratégie de préadhésion, cette étude démontre que la candidature d'adhésion à l'UE est une situation particulière, qui oscille entre le

statut d'État tiers et celui d'État membre.

Principles and Practice in Biobank Governance Dr Jane Kaye, Dr Mark Stranger, 2012-12-28 Rapid technological advances, the establishment of large-scale biobanks, and the exchange of data across international boundaries raise a variety of questions for regulators struggling with the problem of how to govern such stores of information and the processes connected with them. Engaging with the pressing issues of privacy, consent, access to data, and benefit sharing, *Principles and Practice in Biobank Governance* draws together the latest empirical research from the UK, Europe, America, Australia and Asia to focus on these challenges. Current models of governance are critiqued, principles and policies are debated, and new models and theoretical frameworks are presented through this intellectually stimulating, informative volume. This truly international volume offers new insights from a range of disciplinary perspectives and will be essential reading for policy makers and scholars across a range of social sciences, including sociology, bioethics, law and social policy.

Territoires du cinéma Jean-René Morice, Jean-Claude Taddei, Isabelle Van Peteghem, 2017-07-01 Cet ouvrage propose, par une approche multidisciplinaire, de comprendre les places dans lesquelles le cinéma se développe et se crée. Comprendre où et comment le cinéma est un enjeu économique et culturel, saisir sa place dans l'espace social, analyser le traitement que lui réservent les artistes. De l'idée à sa projection, il s'agit d'envisager quelle matérialité emprunte le cinéma et quels espaces tangibles ou imaginaires sont les témoins du 7e art.

Transportation Infrastructure Marlon Gary Boarnet, 2009 Transportation infrastructure is one of the most pressing issues for planners and communities today. In the short term, stimulus funding is being used to create jobs and fix critical systems; in the long run, communities are struggling to determine how best to restructure transport networks to encourage better land use and to foster reductions in greenhouse-gas emissions. This report, edited by Marlon G. Boarnet, was compiled with an eye to the urgency and severity of the challenges that we now face. Some of the leading researchers, scholars, and practitioners in transportation planning put forth fresh best practices and visionary ideas. Contributors include Robert Cervero, Ellen Greenberg, Robert Puentes, Daniel Sperling, and Petra Todorovich. Also here is the discussion among three big-city planning directors--William Anderson (San Diego), Barbara Sporlein (Minneapolis), and Harriet Tregoning (Washington, D.C.)--that took place at APA's 2009 National Planning Conference in Minneapolis.

Not There Yet ,2009 This case study, developed in collaboration with the UNICEF National Committee in Canada, forms a component of Innocenti Research Centre's (IRC) research on the implementation of the Convention on the Rights of the Child. This wider project has examined law reform and the implementation of the Convention in 62 countries. Assessment is currently underway of the progress under other General Measures of implementation of the Convention in the same countries. In-depth case studies of countries in different regions of the world provide the opportunity to illustrate good practices, lessons learned and remaining challenges within the framework of the General Measures. Canada represents an important and multifaceted case to examine as a large federal state in which responsibility for the protection of children's rights is shared between provincial governments and the national government. The study identifies progress that has been made and gaps remaining to be filled in addressing the General Measures of implementation of the Convention in the Canadian context.
