*Play Forever* Kevin R. Stone, 2021-12-14 Why are some octogenarians competitive athletes while others struggle to walk up the stairs? It isn't luck. It's orthopaedic science. If you're tired of doctors telling you that an injury will prevent you from playing the sports you enjoy, you'll love Dr. Kevin R. Stone's *Play Forever*. All great athletes get injured. Only the best of them use those injuries to come back to their sport better-fitter, faster, and stronger than before. Through Dr. Stone's revolutionary approach to sports medicine, you'll discover how injuries can lead to a lifetime of high-performance fitness and athleticism. Learn how the musculoskeletal system can be repaired through cutting-edge therapies, then honed and strengthened through semiannual fitness tests, preseason education and training programs, and regular in-season tune-ups. Backed by scientific outcome studies on orthopaedic treatments and implants, *Play Forever* will become your go-to health and fitness source, helping you play the sport you love to age 100 and beyond.

*Needless Suffering* David Nagel, MD, 2016-07-05 *Needless Suffering* offers a sociological examination of a complex medical problem: chronic pain and the inability of doctors and other health professionals to understand and manage it in their patients. People in pain, writes Dr. David Nagel, are the poor of the medical world. Like the poor, they are stigmatized and left at the mercy of powerful social actors who tend to work in their own self-interest, frequently at the expense of those

they propose to serve. This leaves those who suffer with little control over their own destinies and creates a dysfunctional status quo that harms instead of helps. Drawing on his own experience witnessing his mother's chronic pain and numerous clinical stories from over thirty years' expertise as a pain management specialist, Nagel looks first at patients, their families, and their doctors (usually not trained in pain management), and then broadens his canvas to elaborate a pain power structure that includes the entire healthcare community, insurers, lawyers, government regulators, employers, politicians, law enforcement agencies, and painkilling drugs. Concluding with concrete reforms to create more effective and compassionate pain care, this book is designed for pain patients and their families, healthcare providers, legislators and other public policymakers, judges, personal injury and other attorneys, insurers, government regulators, law enforcement personnel, and health care businesspeople.
