The Cambridge Companion to Harriet Beecher Stowe Cindy Weinstein, 2004-07-15 The Cambridge Companion to Harriet Beecher Stowe establishes new parameters for both scholarly and classroom discussion of Beecher Stowe's writing and life. This collection of specially commissioned essays provides new perspectives on the frequently read classic Uncle Tom's Cabin, as well as on topics of perennial interest, such as Stowe's representation of race, her attitude to reform, and her relationship to the American novel. The volume investigates Stowe's impact on the American literary tradition and the novel of social change. Contributions also offer lucid and provocative readings that analyze Stowe's writings through a variety of contexts, including antebellum reform, regionalism, law and the protest novel. Fresh, accessible, and engaged, this is the most up to date introduction available to Stowe's work. The volume, which offers a comprehensive chronology of Stowe's life and a helpful guide to further reading, will be of interest to students and teachers alike.

The Natural History of Make-Believe John Goldthwaite, 1996-02-22 The Man in the Moon has dropped down to earth for a visit. Over the hedge, a rabbit in trousers is having a pipe with his evening paper. Elsewhere, Alice is passing through a looking glass, Dorothy riding a tornado to Oz, and Jack climbing a beanstalk to heaven. To enter the world of children's literature is to journey to a realm where the miraculous and the mundane exist side by side, a world that is at once recognizable and real--and enchanted. Many books have probed the myths and meanings of children's stories, but Goldthwaite's Natural History is the first exclusively to survey the magic that lies at the heart of the literature. From the dish that ran away with the spoon to the antics of Brer Rabbit and Dr. Seuss's Cat in the Hat, Goldthwaite celebrates the craft, the invention, and the inspired silliness that fix these tales in our minds from childhood and leave us in a state of wondering to know how these things can be. Covering the three centuries from the fairy tales of Charles Perrault to Maurice Sendak's Where the Wild Things Are, he gathers together all the major imaginative works of America, Britain, and Europe to show how

the nursery rhyme, the fairy tale, and the beast fable have evolved into modern nonsense verse and fantasy. Throughout, he sheds important new light on such stock characters as the fool and the fairy godmother and on the sources of authors as diverse as Carlo Collodi, Lewis Carroll, and Beatrix Potter. His bold claims will inspire some readers and outrage others. He hails Pinocchio, for example, as the greatest of all children's books, but he views C.S. Lewis's *The Chronicles of Narnia* as a parable that is not only murderously misogynistic, but deeply blasphemous as well. Fresh, incisive, and utterly original, this rich literary history will be required reading for anyone who cares about children's books and their enduring influence on how we come to see the world.

Handbook of the American Novel of the Nineteenth Century Christine Gerhardt, 2018-06-11 This handbook offers students and researchers a compact introduction to the nineteenth-century American novel in the light of current debates, theoretical concepts, and critical methodologies. The volume turns to the nineteenth century as a formative era in American literary history, a time that saw both the rise of the novel as a genre, and the emergence of an independent, confident American culture. A broad range of concise essays by European and American scholars demonstrates how some of America's most well-known and influential novels responded to and participated in the radical transformations that characterized American culture between the early republic and the age of imperial expansion. Part I consists of 7 systematic essays on key historical and critical frameworks — including debates about race and citizenship, transnationalism, environmentalism and print culture, as well as sentimentalism, romance and the gothic, realism and naturalism. Part II provides 22 essays on individual novels, each combining an introduction to relevant cultural contexts with a fresh close reading and the discussion of critical perspectives shaped by literary and cultural theory.

Uncle Tom's Cabin Professor Harriet Beecher Stowe, 2021-02-23 The impact attributed to the book is great, reinforced by a story that when Abraham Lincoln met Stowe at the start of the Civil War, Lincoln declared, So this is the little lady who started this great war. The quote is apocryphal; it did not appear in print until 1896, and it has been argued that The long-term durability of Lincoln's greeting as an anecdote in literary studies and Stowe scholarship can perhaps be explained in part by the desire among many contemporary intellectuals ... to affirm the role of literature as an agent of social change.

American Visions Edward L. Ayers, 2023-10-24 "An inspiring book.... American Visions beautifully shows how remarkably resilient dreams of a better republic remained even in the darkest of times." —Christoph Irmscher, Wall Street Journal A

revealing history of the formative period when voices of dissent and innovation defied power and created visions of America still resonant today. With so many of our histories falling into dour critique or blatant celebration, here is a welcome departure: a book that offers hope as well as honesty about the American past. The early decades of the nineteenth century saw the expansion of slavery, Native dispossession, and wars with Canada and Mexico. Mass immigration and powerful religious movements sent tremors through American society. But even as the powerful defended the status quo, others defied it: voices from the margins moved the center; eccentric visions altered the accepted wisdom, and acts of empathy questioned self-interest. Edward L. Ayers's rich history examines the visions that moved Frederick Douglass, Margaret Fuller, the Native American activist William Apess, and others to challenge entrenched practices and beliefs. So, Lydia Maria Child condemned the racism of her fellow northerners at great personal cost. Melville and Thoreau, Joseph Smith and Samuel Morse all charted new paths for America in the realms of art, nature, belief, and technology. It was Henry David Thoreau who, speaking of John Brown, challenged a hostile crowd Is it not possible that an individual may be right and a government wrong? Through decades of award-winning scholarship on the Civil War, Edward L. Ayers has himself ventured beyond the interpretative status quo to recover the range of possibilities embedded in the past as it was lived. Here he turns that distinctive historical sensibility to a period when bold visionaries and critics built vigorous traditions of dissent and innovation into the foundation of the nation. Those traditions remain alive for us today.
