From Hitler's Germany to Saddam's Iraq Scott A. Silverstone, 2018-12-14 This book boldly challenges conventional wisdom about the value of preventive war. Beginning with the rise of German power and the French and British response to the Rhineland crisis leading to World War II, Scott Silverstone overturns the common impulse to point an accusing finger at British leadership for its alleged naïveté, willful blindness, or outright cowardice. Arguing against the belief that Britain could have contained Germany and avoided war if it had used force when Hitler remilitarized the Rhineland, the author uses this dramatic event to wrestle with a general strategic problem that has broad relevance for our current foreign policy dilemmas. Silverstone argues that the Rhineland crisis is a critical case for studying a central dynamic of world history—power shifts among states—and the preventive war temptation that power shifts frequently produce. There has been surging interest in the idea of preventive war, an interest stimulated by the Bush administration's articulation of the "preemption doctrine" in 2002 and the disastrous invasion of Iraq in 2003, and by frustration over the difficulty of preventing the proliferation of nuclear weapons by such states as North Korea and Iran. Clarifying the way we think about preventive war, the author analyzes the enduring strategic flaws in preventive war that must inform how political leaders and the public think about this option as a means of dealing with shifting threats in the modern world. Offering a radically conservative argument for when to wage war, this persuasive book will be essential reading for policy makers and concerned citizens alike.

Transatlantic Antifascisms Michael Seidman,2017-11-16 Antifascism has received little attention compared to its enemy. No historian or social scientist has previously attempted to define its nature and history - yet antifascism became perhaps the most powerful ideology of the twentieth century. Michael Seidman fills this gap by providing the first comprehensive study of antifascisms in Spain, France, the UK, and USA, with new interpretations of the Spanish Civil War, French Popular Front, and Second World War. He shows how two types of antifascism - revolutionary and counterrevolutionary - developed from 1936 to 1945. Revolutionary antifascism dominated the Spanish Republic during its civil war and re-emerged in Eastern Europe at the end of World War II. By contrast, counterrevolutionary antifascists were hegemonic in France, Britain, and the USA. In Western Europe, they restored conservative republics or constitutional monarchies based on Enlightenment principles. This innovative examination of antifascism will interest a wide range of scholars and students of twentieth-century history.

The Hitler Years: Triumph, 1933-1939 Frank McDonough, 2025-09-23 From historian Frank McDonough, the first volume of a new chronicle of the Third Reich under Hitler's hand. On January 30th, 1933, Adolf Hitler was appointed the German Chancellor of a coalition government by President Hindenburg. Within a few months he had installed a dictatorship, jailing and killing his leftwing opponents, terrorizing the rest of the population and driving Jews out of public life. He embarked on a crash program of militaristic Keynesianism, reviving the economy and achieving full employment through massive public works, vast armaments spending and the cancellations of foreign debts. After the grim years of the Great Depression, Germany seemed to have been reborn as a brutal and determined European power. Over the course of the years from 1933 to 1939, Hitler won over most of the population to his vision of a renewed Reich. In these years of domestic triumph, cunning maneuvers, pitting neighboring powers against each other and biding his time, we see Hitler preparing for the moment that would realize his ambition. But what drove Hitler's success was also to be the fatal flaw of his regime: a relentless belief in war as the motor of greatness, a dream of vast conquests in Eastern Europe and an astonishingly fanatical racism.
