*Philosophy of Meaning, Knowledge and Value in the Twentieth Century* John Canfield, 2012-10-12 Volume 10 of the Routledge History of Philosophy presents a historical survey of the central topics in twentieth century Anglo-American philosophy. It chronicles what has been termed the 'linguistic turn' in analytic philosophy and traces the influence the study of language has had on the main problems of philosophy. Each chapter contains an extensive bibliography of the major writings in the field. All the essays present their large and complex topics in a clear and well organised way. At the end, the reader finds a helpful Chronology of the major political, scientific and philosophical events in the Twentieth Century and an extensive Glossary of technical terms.

**Philosophy of Meaning, Knowledge and Value in the 20th Century** John V. Canfield, 2016-03-31 The twentieth century brought enormous change to subjects such as language, metaphysics, ethics and epistemology. This volume covers the major developments in these areas and more.
