Media,2022-06-21T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The Universal Law of Thought and Manifestation states that a thought has two basic aspects: a rational aspect, which is the statement of the thought itself, and an emotional aspect, which is the personal feelings and emotions associated with the thought. #2 Your self-image is the starting point of your life experiences. It is the mental and emotional picture you hold in your own consciousness of who you are, what you are about, and what you represent. Your self-image determines your capacity to give, receive, and interact with the life experiences and possibilities that confront you. #3 The first seven years of a child's life are crucial for their development of the basic system of values that will take them through life. It is during this period that the child learns and develops emotions and feelings of fear and reward, pain and pleasure, love and lack of love, guilt, blame, and shame. #4 Your environment is a strong influence on your self-image because it is a source of validation and confirmation. If you have a poor self-image, you will live and work in a run-down area, in a poorly maintained home, in an otherwise negative environment.
