**Waking the Asian Pacific Co-operative Potential** Morris Altman, Anthony Jensen, Akira Kurimoto, Robby Tulus, Yashavantha Dongre, Seungkwon Jang, 2020-06-21 Replete with case studies, *Waking the Asian Pacific Cooperative Potential* applies a novel theoretical framework to aid in understanding meaningful change in cooperative firms, mutual firms, collectives, and communes, focusing in particular on the underexamined Asia Pacific region. It explores the common, albeit competing, objectives of transformational cooperatives that deliver a range of social benefits and corporate coops where the cooperative exhibits the characteristics of a competitive investor firm. The book provides examples of successful cooperatives in eleven countries across the Asia Pacific and reviews the theoretical framework of cooperatives, including issues pertaining to socio-economic, politico-legal, and domestic and international factors. *Waking the Asian Pacific Co-operative Potential* provides early-career researchers and graduate students with a systematic resource of cooperatives in the Asia Pacific, highlighting core lessons from case studies regarding the ideal role of cooperatives in a modern economy and on the enabling factors of the role of the state, the market potential for scale-up, the mitigation of poverty, and civil society. - Provides numerous case studies drawn from successful co-operative organizations across the Asia Pacific region - Advances a theoretical framework to help readers access and understand the reasons for co-operative success in the Asia Pacific region - Develops tools for practitioners to establish effective co-operatives and restructure them to optimal goals
