Triumphs of Experience George E. Vaillant, 2012-10-30 At a time when people are living into their tenth decade, the longest longitudinal study of human development ever undertaken offers welcome news for old age: our lives evolve in our later years and often become more fulfilling. Among the surprising findings: people who do well in old age did not necessarily do so well in midlife, and vice versa.

Renewing Pastoral Practice Neil Pembroke, 2013-05-28 This is the first comprehensive treatment of the relationship between the doctrine of the Trinity and pastoral care and counselling. Neil Pembroke contends that an in-depth reflection on the relational dynamics in the Godhead has the capacity to radically renew pastoral practice. Pembroke applies the notion of relational space to care in a parish setting. The life of the triune God is defined by both closeness and open space. The divine persons indwell each other in love, but they also provide space for the expression of particularity. This principle of closeness-with-space is applied in three different pastoral contexts, namely, community life, spiritual friendship, and pastoral conversations. The specialized ministry of pastoral counselling is the focus in the second half of the book. Informing the various explorations is the principle of participation through love: the divine persons participate in each other's existence through loving self-communication. Pembroke shows how this trinitarian virtue is at the centre of three key counselling dynamics: the counselling alliance, empathy, and mirroring.

Kaplan and Sadock's Study Guide and Self-examination Review in Psychiatry Benjamin J. Sadock, Virginia A. Sadock, Ze'ev Levin, 2007 This study guide is an excellent aid in preparing for boards and other psychiatry exams and in reinforcing a student's knowledge. Theories of Counseling and Psychotherapy Allen E. Ivey, 2002 This continues to be the only counseling theory text that shows how and why to engage in the specifics of each major counseling theory. It is the most detailed and specific of all texts in terms of helping students actually practice counseling and therapy. The Practice Competencies provide students with specifics of how to use major strategies, allowing instructors to expect their counseling students to present portfolios of competencies indicating that they can actually engage in the theory as well as understand it. The text has infused multicultural orientation and illustrates how traditional theory can be adapted with many different populations.
