Understanding Folk Religion: 25th Anniversary Edition Paul G. Hiebert, R. Daniel Shaw, Tite Tienou, 2024-04-24 This book has served the missiological community for twenty-five years as a resource for understanding human spirituality in any context. Thousands of students have incorporated the principles of this book into ministry around the globe. This twenty-fifth anniversary edition seeks to enable those who now bring their passion for mission to contemporary contexts affected by globalization, climate change, and political perspectives unimagined when this book originally appeared. Every community, wherever it is on earth, has its share of beliefs and values that manifest themselves in practices that reflect spiritual engagement. Those engaged in mission need to appreciate how underlying beliefs and values are reflected in handling spiritual power, worship and blessing, and interaction with others. Gospel communicators must account for these elements as they seek to make God's intentions known to people who are searching for God. The models presented early in the book are essential for establishing what people consider spiritually critical. Applying these models in any religious environment will enable message-bearers to engage with beliefs and practices that promote a gospel presentation that makes sense. To that end, we commend this book for effective missional engagement.

Neo-Gothic Narratives Sarah E. Maier, Brenda Ayres, 2020-03-31 Neo-Gothic Narratives defines and theorises what, exactly, qualifies as such a text, what mobilises the employment of the Gothic to speak to our own times, whether nostalgia plays a role and whether there is room for humour besides the sobriety and horror in these narratives across various media. What attracts us to the Gothic that makes us want to resurrect, reinvent, echo it? Why do we let the Gothic redefine us? Why do we let it haunt us? Does it speak to us through intertextuality, self-reflectivity, metafiction, immersion, affect? Are we reclaiming the history of women and other subalterns in the Gothic that had been denied in other forms of history? Are we revisiting the trauma of English colonisation and seeking national identity? Or are we simply tourists who enjoy cruising through the otherworld? The essays in this volume investigate both the readerly experience of Neo-Gothic narratives as well as their writerly pastiche.
