The Rise of the Curator Class Steffon Davis,2019-03-14 Pairing big ideas in marketing with the popular activity of content curation, *The Rise of the Curator Class* positions curation as a humanization movement that is restructuring the internet. Curation is set to overturn the \$2.2 trillion global creative industry, revolutionizing how we create, market, and discover content. In the era of content overload and fake news, in which everything to buy, listen to, read, or watch is available online, there is one group of people who have learned to thrive in this climate of superabundance: the curator class, whose influence and power grows as more people look to them as guides. This new curator class is rewriting traditional curation, tackling the overload and making sense of it for others. In the past, curation was available to an elite few. Now, internet platforms such as Pinterest, Spotify, and Twitter empower hundreds of millions of people to curate their ideas for anyone who may be interested, revolutionizing how content is marketed and sold. *The Rise of the Curator Class* explains how curation is disrupting internet commerce as consumer trust moves farther away from traditional brands and closer to the curators who lead tastes, and it equips readers to think critically about how curation can work for them.

*The Millionaire's Revenge* Wendy Byrne,2016-12-12 Real estate tycoon Luke McCall has a plan to take down the underhanded competitor messing with his livelihood. He intends to romance the man's daughter, gain her trust, and get the information he needs to put his rival out of business once and for all. He just didn't plan for the way she makes him feel. Grace Wilson is tired of men using her smarts, social position, or her father's status for their personal gain. It's time for a new philosophy: Test. Screw. Dump. But after she meets Luke, she's not sure she'll be able to walk away. Not only is he sexy and charming, but he's survives every tests she puts him through. But can she trust a guy who seems too good to be true?

Virtually Married Ian Wood,2022-11-01 When Robert and Alice meet at an annual virtual reality conference in Durban, South Africa, they became friends, and after a liquid lunch one day the two of them tipsily take part in a virtual marriage demo. Then they have a falling out. It's only after the conference, when they've gone their separate ways, that they discover they're legally married. There's a failsafe clause though, if the marriage isn't consummated within a year and a day, it will automatically be dissolved. They're both of a mind to let that happen, but fate doesn't appear to agree with them, as they seem to keep on crossing each other's path. Can a virtual marriage lead to a real life love?

**Fifty Shades of Green (with Envy)** Lake Press, In these fun and hilarious books, we look at going grey and how different people feel about this inevitable change - and hope that some of these quotes from those who are older, wiser and greyer will help you on your way to accepting greys with good grace and humour. Features over 50 light hearted and funny quotes to remind us that life is short, and none of us have time to yearn after things we don't have, or be dissatisfied with our lot - not to mention expending energy making someone else's life miserable because they seem better off than you are!

**Development Strategies and Biodiversity** David Costantini, Valeria Marasco, 2022-02-15 Development is a complex and highly dynamic process involving the cross talk among genes, maternal effects and environmental circumstances. Widespread evidence from plant to animal species show that variation in developmental conditions can modulate life history trajectories and influence key traits, such as growth, reproduction, and senescence. These effects are not limited to a single generation but can also be passed on future generations. This book aims to bring together studies of early life effects from the fields of evolutionary biology, global change biology, and biomedicine to synthesise and improve current knowledge of the mechanisms involved, and how variation in early life conditions translates into Darwinian fitness outcomes. Relying on examples of organisms' responses to the ongoing and future environmental challenges of the Anthropocene, this book takes a novel approach to address the adaptive meaning of early life effects. The book has a broad scientific approach, targeting eco-evolutionary biologists, behavioural biologists, eco-physiologists, eco-toxicologists, as well as epidemiologists and biomedical scientists.

*The World of Inspector Lestrade: Historical Companion to the Inspector Lestrade Series* M. J. Trow, 2022-07-13 Book eighteen in the Inspector Lestrade series. Many readers of the Lestrade books wonder what is fact and what is fiction - and the author is delighted that they can't always tell! So, for all the readers out there who have ever asked that question, here is the World of Inspector Lestrade. In this book, the lid is taken off the Victorian and Edwardian society in a way you've never seen before. Lestrade knew everybody, from Oscar Wilde in the Cadogan Hotel, to General Baden-Powell, cross-dressing on Brownsea Island, to the hero of Damascus, General Allenby - 'you can call me Al.' Have you ever wondered whether Howard Vincent, Director of the brand new CID really had a pet iguana? Find out inside. The Lestrade canon features the great and not so good of Britain when London stood at the heart of the Empire, the biggest in the world on which the sun never set. The novels on which this book is based are genuine whodunnits, with gallows humour and laugh-out-loud moments. Here you will find all the little peccadilloes that Lestrade took for granted. This is history as it really was - and I bet you wish you'd paid more attention at school now!
