*The Business Model: How to Develop New Products, Create Market Value and Make the Competition Irrelevant* Alexander Chernev,2017-03-19 New product success is often attributed to intuition. Yet, while some products born from intuition do make it big, many others crash and burn. The reason is that intuition is only one aspect of new product development. The other key ingredient of success is having a business model that outlines the ways in which new products will create market value. This book offers a systematic approach to identifying market opportunities and developing breakthrough business models. It outlines the key principles of business model generation, presents a value-based framework for developing viable new offerings, and provides a set of practical tools for creating a meaningful value proposition that drives market success. The business model framework outlined in this book applies to a wide range of companies—startups

and established enterprises, consumer-packaged-goods companies and business-to-business enterprises, high-tech and low-tech ventures, online and brick-and-mortar entities, product manufacturers and value-added service providers, nonprofit organizations and profit-driven companies. Practical, actionable, and succinct, The Business Model is the essential reference and how-to guide for everyone seeking to achieve market success: from entrepreneurs to experienced managers, from senior executives to product designers, from those creating new market offerings to those improving on existing ones. This book is for those passionate about building great products that create market value and disrupt industries.

**How I Make Money While I Sleep** Harry Sebastian, 2020-10-26 Introduction Do you dream about achieving true financial freedom? Do you want more time to spend with your family and friends or do the things you love? Money does make certain aspects of life easy. It makes it possible to do things we couldn't do without it. We could all use more money than we have. For many of us, it can seem like the only way to get it is to place longer hours at work than we already do. We feel limited in terms of what we can earn. Taking a second (or third) job is exhausting to think about, yet many people do precisely break free of debt and make a good income. There's an adage that says that nobody ever wishes, on their deathbed, that they had spent more time working. Whatever you earn during your lifetime - and however much time you spend making it - you can't take it with you when your life is over. Working longer hours, and taking time away from the people and things you love, is not the answer. The only way forward is to find solutions to make money consistent and constant, and that doesn't require you to waste your life working hard that you don't have time to taste roses. What You Will Learn in This Book What if you could earn money while you sleep or while you spend quality time with your family and friends? The purpose of this book is to support you do exactly that. It might sound too good to be true - but I promise you, it's not. The secret to accomplishing that goal is learning about a type of income called passive income. In the first chapter, I will cover the basics of passive income. What is it, and how does it differ from the income you earn working a 9-to-5 job? I'll give you basic definitions of active and passive income so that you understand the difference - and why passive income is preferable to active income in the long run. I'll also explain why it is essential to set up multiple passive income sources if you want to attain true financial freedom.

How To Profit From Creating Your Hot Online Selling Digital Product Kristy Jenkins, 2015-06-11 How to Get Started Selling Your Own Digital products Selling digital products is a great source of income for entrepreneurs—it's a semi passive income source because efforts are required for marketing your created products to attract traffic to your online Moneysites and provide customer support for them, unless such supporting services are being outsourced. It may seem like a pretty intimidating idea if you have never created your own product, but it really doesn't have to be that complicated, and in this ebook, we'll take a look at what is involved with creating your very own hot selling digital product. While there are endless possibilities when it comes to creating and selling digital products, there are a few types of products that tend to be the most

common. This ebook will offer various in depth understanding to various options. If it's possible to make money by promoting other people's products as an affiliate, why would you want to go to the trouble of creating your own product? Well, there are several reasons to this , one of the most significant is the unlimited income potential and you will have full control over all the details of the product and its pricing, which is not the case if you are promoting a product as an affiliate. Many of the most successful technopreneurs have made it Big online and usually are with their own digital products. Having your own exclusive product is great for branding yourself as an authority on a particular subject. Think about it, which other businesses will allow you to work where, when and how you want? In case if you are wondering that this journey might involve thousands of dollars to invest and risk? Well, that has never crossed my mind as digital product business has little to NO RISK. There will be some expenses involved to register some domain names, get web hosting and perhaps outsource some content. But all in all, it will not exceed the price of an iPhone or a digital tablet as long you start with small steps. Another reason why you should start a digital product business is that it's a completely automated business. You set everything up once and simply drive traffic, all repeated sales income automatically will be deposited into your payment gateway account on 24/7 365 days, all at its own operation.

*Next Generation Wireless Applications* Paul Golding, 2008-04-30 Cuts through the hype! Golding's compelling offers visionary, but practical insights. A must have reference treatment for all practitioners in the mobile innovation space. —Jag Minhas, Telefónica O2 Europe Second edition of this best-selling guide to Wireless Applications: fully revised, updated and with brand new material! In *Next Generation Wireless Applications, Second Edition*, the author establishes a picture of the entire mobile application ecosystem, and explains how it all fits together. This edition builds upon the successes of the first edition by offering an up-to-date holistic guide to mobile application development, including an assessment of the applicability of new mobile applications, and an exploration into the developments in a number of areas such as Web 2.0, 3G, Mobile TV, J2ME (Java 2 Micro Edition) and many more. Key features of this second edition include: New introductory chapters on trends in mobile application, and on becoming an Operator. Two new chapters on Mobile 2.0 and IMS and Mobilizing Media and TV. Extra material on convergence, Web 2.0, AJAX (Asynchronous JavaScript and XML), HSDPA (High Speed Downlink Packet Access) and MBMS (Multimedia Broadcast Multicast Service), WiMAX (Worldwide Interoperability for Microwave Access) and WiFi. Best practice on how to present to, sell to and work with operators. More insights, anecdotes and sidebars reflecting the author's extensive experience in the industry. *Next Generation Wireless Applications* will prove essential reading for professionals in mobile operator and mobile application developing companies, web developers, and developer community managers. Media companies, general managers, business analysts, students, business consultants, and Java developers will also find this book captivating. If you want to understand the future of mobile applications and services, their potential impact and the growth opportunities this is the perfect starting point. —Martin

Smith, Head of Content Innovation & Applications, T-Mobile

Personal Finance Robert B. Walker,Kristy P. Walker,2016 Personal Finance, 2e by Walker/Walker offers students an engaging treatment of personal finance, while incorporating unique themes, an application-driven pedagogy, and a definitive action plan. Unlike other texts on the market, it offers a frank and timely discussion of living within one's means and incorporating personal values and priorities into a personal financial plan. The intent is to help readers set priorities that guide their finances, rather than the other way around. This book establishes a path toward financial freedom that is less about accumulating wealth and more about building a future tailored to individual goals. With Walker/Walker, your future looks bright!--
