A Trader's Guide to Financial Astrology Larry Pasavento, Shane Smoleny, 2015-01-20 Look to the stars for a whole new approach to market cycle forecasting A Trader's Guide to Financial Astrology is the definitive guide to trading market cycles based on astrological data. Written by a highly-respected technical analyst, this book makes the connection between the movements of planets and the volatility of the market. Readers can draw upon one hundred years of historical data as they learn how to spot correlations from the past, and refer to planetary and lunar data for the next five years as they shape their own strategy. The book covers the principles of astrological forecasting as applied to the financial markets, explaining what to watch for and how to interpret planetary and lunar activity, plus expert insight on everyday practical application. A study by the Federal Reserve Bank of Atlanta determined that the U.S. stock markets tend to be negatively affected by geomagnetic storms, and the Royal Bank of Scotland demonstrated that a trading system based on the phases of the moon would have outperformed the market. A Trader's Guide to Financial Astrology shows traders how to tap into the planetary forces that influence market activity. Readers will: Learn how planetary and lunar movements relate to the financial markets Draw upon 100 years of historic correlations and five years of forecast data Forecast long-term and short-term activity based on planetary relationships and lunar movement Enter the markets at key turning points, using price patterns and other tools When integrated with technical trading patterns, astrology can be an effective way of shifting perspective and approaching the market differently. For traders who have always wanted to know what to do when Mercury is in retrograde or the moon is new, A Trader's Guide to Financial Astrology provides information and insight from a leading market educator.

Signs of Success Steven Mark WEISS, 2008-05-16 J.P. Morgan once famously remarked, "Millionaires don't have astrologers. Billionaires do." For modern business professionals, the idea that what's in the stars might have some bearing on the very cut-and-dried, numbers-dominated corporate environment may seem pretty "out there." But time and time again, the science of astrology has been shown to provide uncanny insight into timing and trends. This book examines the accomplishments of hundreds of business greats—from Walt Disney to Oprah Winfrey to Bill Gates—through the remarkable and surprising lens of astrology. Signs of Success gives all readers, be they astrological doubters, dilettantes, or devotees, a practical and entertaining overview of the many applications of astrology to business endeavors. The book provides an analysis of the 12 zodiacal business personality types, and fascinatingly recounts how an understanding of the stars has affected landmark business events throughout history. Witty, wise, and practical, this delightful book shows readers that when it comes to real-world business and leadership, the sky truly is the limit.
