

Jose Rodolfo Villarreal Hernandez

Fernando Romero

Hispanic Genealogical Journal ,2002

Las señoras del narco Anabel Hernández,2023-10-12 «Mi historia se entrelaza con la de una multitud de personajes bastante complejos y pertenecientes a todos los ámbitos, cuento con mucha información que le servirá para completar sus investigaciones. Temo por mi vida. No sé cuál sea mi destino, mi vida está en manos de Dios, pero debo descargar toda la información que he acumulado antes de que algo me pase.» Celeste V. Tras publicar Emma y las otras señoras del narco y convocar a romper el pacto de impunidad dentro de los cárteles de la droga, Anabel Hernández recibió un inquietante mensaje. Mujeres y hombres respondieron al llamado, revelando los secretos del mundo en el que han vivido. Es así como Celeste, quien durante más de una década fue pareja sentimental de Arturo Beltrán Leyva , se convierte en la guía de un viaje en el infierno donde ella vivió y conoció a los jefes de la droga más temidos de los últimos tiempos. Por medio de un testimonio descarnado y sin censura, el lector sube a una montaña rusa y hace un recorrido con pendientes pronunciadas, giros inesperados y cruces mortales por el inframundo del narcotráfico. En diversas partes del trayecto, junto con los jefes de la droga, aparecen funcionarios públicos, empresarios y políticos en reuniones, llamadas telefónicas y grabaciones. En otros tramos, se ve caminar con tacones altos a decenas de mujeres cuya presencia motiva y perpetúa la maquinaria criminal. Celeste no solo abunda en detalles sobre las famosas Ninel Conde y Galilea Montijo y su vínculo con Arturo Beltrán Leyva, sino que revela la interacción de otras famosas como Mariana Ríos, Dorismar, Betty Monroe, Karla Luna, Karla Panini, Patricia Navidad o la socialité Violeta Vizcarra, una de las encargadas de enganchar a las famosas para llevarlas ante el líder de los Beltrán Leyva. En el último tramo, la autora explora infiernos paralelos al de Celeste, incluyendo el propio. Asiste al juicio contra Genaro García Luna en Nueva York, donde se encuentra con su esposa Linda Cristina Pereyra. Y, finalmente, se adentra en los núcleos familiares de los Chapitos, cuyo momento criminal está en auge. «El infierno en el que ellas aman es el mismo que nos consume como sociedad y nación. Es a través de las señoras del narco y su interacción con los jefes de la droga que puede derribarse la barrera y no solo conocer los perfiles criminales, sino la psique de quienes comandan.»

Alzheimer's Disease and Air Pollution Lilian Calderón-Garcidueñas, 2021-05-15 Most people think of Alzheimer's disease as a condition which predominately affects elderly people, but an increasing amount of evidence indicates that in populations exposed to high concentration of air pollutants, Alzheimer's disease development and progression can be identified in pediatric and young adulthood ages. Cognitive, olfactory, gait, equilibrium and auditory alterations are seen early, thus the concept of decades-long asymptomatic period prior to clinical cognitive impairment does not apply to the millions of people exposed day in and day out to polluted environments. This book *Alzheimer's Disease and Air Pollution - The Development and Progression of a Fatal Disease from Childhood and the Opportunities for Early Prevention* is a compilation of work by researchers intent on revealing the links between air pollution and neurodegeneration. The book is divided into 6 sections. It includes a section describing the ways in which air pollution from traffic and tobacco smoke can damage the brain; epidemiological studies establishing a strong link between dementia and particulate matter and ozone; papers explaining the properties of pollution; and works describing the intricate pathways which transform normal neurons into ghost tangles surrounded by a devastated brain. Air pollution is complex; different pollutants, different sizes and shapes and different portals of entry, play different roles, but their capacity to damage neural tissue is abundantly illustrated in this book, which highlights the need for preventive measures to protect the millions of people currently exposed to air pollutants, and the need to ameliorate their harmful effects.

The Plan de San Diego Charles H Harris, Louis R Sadler, 2013-07-01 The Plan of San Diego, a rebellion proposed in 1915 to overthrow the U.S. government in the Southwest and establish a Hispanic republic in its stead, remains one of the most tantalizing documents of the Mexican Revolution. The plan called for an insurrection of Mexicans, Mexican Americans, and African Americans in support of the Mexican Revolution and the waging of a genocidal war against Anglos. The resulting violence approached a race war and has usually been portrayed as a Hispanic struggle for liberation brutally crushed by the Texas Rangers, among others. *The Plan de San Diego: Tejano Rebellion, Mexican Intrigue*, based on newly available archival documents, is a revisionist interpretation focusing on both south Texas and Mexico. Charles H. Harris III and Louis R. Sadler argue convincingly that the insurrection in Texas was made possible by support from Mexico when it suited the regime of President Venustiano Carranza, who co-opted and manipulated the plan and its supporters for his own political and diplomatic purposes in support of the Mexican Revolution. The study examines the papers of Augustín Garza, a leading promoter of the plan, as well as recently released and hitherto unexamined archival material from the Federal Bureau of Investigation documenting the day-to-day events of the conflict.

No Mexicans, Women, or Dogs Allowed Cynthia E. Orozco, 2010-01-01 "A refreshing and pathbreaking [study] of the roots of Mexican American social movement organizing in Texas with new insights on the struggles of women" (Devon Peña, Professor of American Ethnic Studies, University of Washington). Historian Cynthia E. Orozco presents a comprehensive study of the League of United Latin-American Citizens, with an in-depth analysis of its origins. Founded by Mexican American men in 1929, LULAC is often judged harshly according to Chicano nationalist standards of the late 1960s and 1970s. Drawing on extensive archival research, *No Mexicans, Women, or Dogs Allowed* presents LULAC in light of its early twentieth-century context. Orozco argues that perceptions of LULAC as an assimilationist, anti-Mexican, anti-working class organization belie the group's early activism. Supplemented by oral history, this sweeping study probes LULAC's predecessors, such as the Order Sons of America, blending historiography and cultural studies. Against a backdrop of the Mexican Revolution, World War I, gender discrimination, and racial segregation, *No Mexicans, Women, or Dogs Allowed* recasts LULAC at the forefront of civil rights movements in America.

Hyperborder Fernando Romero, 2008 Roving vigilantes, fear-mongering politicians, hysterical pundits, and the looming shadow of a seven hundred-mile-long fence: the US-Mexican border is one of the most complex and dynamic areas on the planet today. *Hyperborder* provides the most nuanced portrait yet of this dynamic region. Author Fernando Romero presents a multidisciplinary perspective informed by interviews with numerous academics, researchers, and organizations. Provocatively designed in the style of other kinetic large-scale studies like Rem Koolhaas's *Content* and Bruce Mau's *Massive Change*, *Hyperborder* is an exhaustively researched report from the front lines of the border debate.
