Make the Right Call Drew Bledsoe, 1998-04-01 In his first book for children, Drew Bledsoe, the No. 1 NFL draft pick in 1993, focuses on the message that we are all responsible for the decisions we make. Through it all, Bledsoe stresses to young readers that we all need to learn the tools that allow us to make the right call each day.

Self-Action Leadership: the Key to Personal & Professional Freedom Jordan R. Jensen, 2015-10-09 Self-Action Leadership: The Key to Personal & Professional Freedom is a groundbreaking personal leadership manual that introduces a metaphysical (or self-help) Theory of Everything. In the book, Dr. Jensen interweaves nearly three decades of personal experiences, literature reviews, and action research into an original Theory and Model of personal leadership called Self-Action Leadership. In the narrative sections of his book, Dr. Jensen describes the life and career challenges he has faced and overcome while struggling to manage obsessive-compulsive disorder (OCD) and depression. Self-Action Leadership is the most comprehensive personal leadership handbook to hit the market since Dr. Stephen R. Covey's 7 Habits of Highly Effective People.

Minute by Minute Larry Carpenter, 2021-06-08 Being a scoutmaster can be one of the most rewarding things a person can do. But it can be a lot of work! Ask any scoutmaster what's the hardest part of the job, and one of the most common responses you will get would be coming up with the scoutmaster's minutes. Week after week, over fifty times a year, the scoutmaster must come up with an inspiring, educational, and entertainment message for the Scouts. Let's face it. Not every scoutmaster is the most gifted public speaker. Research shows that the number one fear of people is speaking in public. Just because a scoutmaster loves to hike, camp, teach, lead, and motivate, doesn't mean that they are comfortable speaking in front of a group. And how do you come up with inspiring stories, instructional words of wisdom and motivational messages, week after week? Long-time Scout leader, Larry Carpenter, has written a book that can be a lifesaver for any scoutmaster. This collection of 100 of the best scoutmaster's minutes offers brief messages that are themed to topics, including the Scout Oath, Law, Motto and Slogan. Additional minutes cover other topics, such as persistence, honesty, leadership, and other positive character traits. This book makes a perfect gift for your scoutmaster. Or, if you are a scoutmaster who is on the spot once a week, make it a gift to yourself!

Inside the Mind of the Turtles: How the World's Best Traders Master Risk Curtis Faith,2009-03-03 "I like risk. I embrace risk." -Turtle trader Curtis Faith Risk is scary, to be sure, but it's a fundamental aspect of the investing world. Without it, profit would not exist. The trick is to accept, anticipate, manage, and mitigate risk. In other words, master it. In Way of the Turtle, Curtis Faith revealed the extraordinarily successful trading system of the now-famous group of investors known as the Turtles. Now, in this highly anticipated follow up to that bestseller, Faith delves deeply into the risk-mastery strategies that made the Turtles the envy of the investing world. Inside the Mind of the Turtles provides expert insight into how great traders combat the natural but counterproductive response to risk. Faith begins by examining the nature of risk and the human being's natural response to it. Then he outlines proven techniques for seizing control of it. You will learn how to: Set your main focus on acquiring gains--not avoiding losses Place equal importance on assets already spent and those still on hand Judge the quality of decisions based on their inception rather than their outcome Avoid drawing conclusions using too little information You'll find valuable advice not only from Faith, but from some of the greatest financial minds on the scene today, including fellow Turtle Jerry Parker, venture capitalist Simon Olson, and Howard Lindzon, founder of the popular Web site, WallStrip. Use their collective advice, and you'll find yourself approaching risk in ways you never dreamed possible. In today's economy, controlling your aversion to risk is not just prudent--it's an absolute necessity. Economic turbulence more often than not leads to poor investment decisions. Inside the Mind of the Turtles will help you conquer the fears that can cripple even the most experienced investors out there.
