Quotes of the Prophet Drew Ali, 2014-12-15 Quotes of Prophet Noble Drew Ali the oral statements of the prophet
The Princess and the Prophet Jacob Dorman, 2020-03-03 The just-discovered story of how two enigmatic circus performers and the cultural ferment of the Gilded Age sparked the Black Muslim movement in America Delving into new archives and uncovering fascinating biographical narratives, secret rituals, and hidden identities, historian Jacob Dorman explains why thousands of Americans were enthralled by the Islamic Orient, and why some came to see Islam as a global antiracist movement uniquely suited to people of African descent in an era of European imperialism, Jim Crow segregation, and officially sanctioned racism. *The Princess and the Prophet* tells the story of the Black Broadway performer who, among the world of Arabian acrobats and equestrians, Muslim fakirs, and Wild West shows, discovered in Islam a greater measure of freedom and dignity, and a rebuttal to the racism and parochialism of white America. Overturning the received wisdom that the prophet was born on the East Coast, Dorman has discovered that Noble Drew Ali was born Walter Brister in Kentucky. With the help of his wife, a former lion tamer and “Hindoo” magician herself, Brister renamed himself Prophet Noble Drew Ali and founded the predecessor of the Nation of Islam, the Moorish Science Temple of America, in the 1920s. With an array of profitable businesses, the “Moors” built a nationwide following of thousands of dues-paying members, swung Chicago elections, and embedded themselves in Chicago’s dominant Republican political machine at the height of Prohibition racketeering, only to see their sect descend into infighting in 1929 that likely claimed the prophet’s life. This fascinating untold story reveals that cultures grow as much from imagination as inheritance, and that breaking down the artificial silos around various racial and religious cultures helps to understand not only America’s hidden past but also its polycultural present.

Multi/Race/Less/Ness Jon Ivan Gill, 2025-11-13 It is not new, or radical, to suggest that 'race' is a social construct. The idea has been prominent in social, political and philosophical discourse for decades. The bold challenge put forward by Jon Ivan Gill is that this idea is just a halfway house – questioning the fixity of race while doing nothing to lessen the trauma caused by its continued presence as a category of human identity. Can we truly end racism before we dissolve the notion of race itself, and if we do then what are we left with? Showing the role that philosophy of religion has played in reifying ideas of race and racial categories, Gill looks beyond that legacy to a world after and beyond those ideas. With seemingly

immutable notions of race still baked into our societies at the level of law and legislation, process philosophy can remind us that being, and how we define it, is dynamic and will change over time. If race as a category is impermanent, then it can be undone. Dispelling this 'powerful apparition' has deep-laced significance for contemporary society, from cancel culture and reparations to mixed race identity and the suppression of ethnicity and nationality. This is at once a keen dissection of colonial apparatus and a practical, creative vision for a new way of organizing ourselves.

Looking for Farrakhan Florence H. Levinsohn,1997-06 With the eye of an accomplished journalist and the diligence of a bloodhound, she traces Farrakhan's rise from his boyhood as a West Indian in Boston - acolyte of his Episcopal church, top student, winning track star, talented violinist and later an accomplished popular singer, the Charmer - through his hidden anger and resentment to his leadership of the Nation and his role in the larger black community. Her portrait uncovers a religious zealot who sees himself in a long tradition of black saviors, who senses white hostility everywhere - and is often right. Along the way, Ms. Levinsohn considers the content of Farrakhan's character and the substance of his ideas.

Malcolm X Robert Terrill,2004 Prior to this text, little has been done to analyze Malcolm X's speeches. Author Robert Terrill explores the key texts from the African-American protest, those delivered while he was a minister for the Nation of Islam and afterwards. This volume shows that the changing potential of Malcolm's rhetoric lies, in part, in its iconoclastic refusal to be constrained by definitive boundaries.
