

The Technology Of Gods

Dorothy Mallett Slusser, Gerald H. Slusser

Technology of the Gods David Hatcher Childress, 2000 Technology of the Gods lays out the mind-bending evidence that long-lost civilizations had attained and even exceeded our modern level of advancement. Westerners have been taught that humankind has progressed along a straight-line path from the primitive past to the proficient present, but the hard, fast evidence (literally written in stone!) proves that the ancients had technologies we cannot even replicate today.

Psykanics For Conversations With God: The Technology to Return to the ONE Thomas Michael Powell,

The Technology Of Apostolic Succession Dr. Gordon E. Bradshaw, 2014-04-30 “Thy seed will I establish for ever, and I will build up thy throne to all generations. Selah” –Psalm 89:4. This powerful statement was made thousands of years ago, yet it still holds the key to success for spiritual families in the earth today. God has a plan for your church, ministry network and organization that includes a healthy future! The throne of Jesus Christ and His spiritual family are established without interruption and our dominion is everlasting. In this captivating revelation, Dr. Gordon E. Bradshaw reveals how to successfully build the lasting lineage that will endure for generations to come! You will discover: The importance of a Godly lineage and spiritual heritage, The pitfalls of not having proper succession in place, Why generations fail and how to prevent it in your lineage, God’s greatest “Gift” to coming generations, How to prevent “Spiritual Abortions” and premature spiritual death, The power of a “Good Name” and how it restores credibility to believers ...and much more!

Balancing God, Science, and Technology in the End Times Juanita Werrett, 2021-04-19 It is critical in this day of discovery and augmented scientific knowledge that we come to an accurate balance of understanding between foundational science and foundational religion. We are facing a technology that is moving at enormous speed. We need to understand the precarious status of humans as we enter and live through the future technology era that is upon us. Humanity could be negatively affected by technology either unintentionally or by design. As we move forward, ethical and moral decisions will be confronted as to how we manage AI (artificial intelligence) robots, avatars, and the huge data-gathering process associated with the tech industries being formulated at this moment. Controversy will rage, but solutions will percolate. The truth is, you and I are the product in the new global technology paradigm, and our information will feed AI, the data-eating beast. Pandora's box is open. Science and technology are leapfrogging forward at an exponential pace. There is no mechanism to stop it...except God! God's children are weighted and wired for spiritual success. True doctrines and

ordinances of the Gospel of Christ fortify faith and give Christians hope in His return. Spiritual development and power comes to those who are prepared and willing to stand with Christ. The fuller blessings may be ours in spite of the underlying challenges. Perhaps it is fortunate that we live in the fullness of time and the fast-approaching premillennial era. The righteous will be saved in life or death. Some may be blessed to witness the glorious Second Coming of the Savior.
