Connecting Children with Classics Meagan Lacy, Pauline Dewan, shady radical, 2018-03-14 This guide identifies hundreds of books that can help children develop into engaged readers. Children's librarians, collection development specialists in public libraries, as well as K-8 school librarians and teachers will choose from the best in children's titles. This unique readers' advisory and collection development guide for librarians and others who work with children focuses on readers and their needs, rather than simply categorizing books by their characteristics and features as traditional literature guides do. Taking this unusual perspective brings forth powerful new tools and curricular ideas on how to promote the classics, and how to best engage with young readers and meet their personal and emotional needs to boost interest and engagement. The guide identifies seven reader-driven appeals, or themes, that are essential to successful readers' advisory: awakening new perspectives; providing models for identity; offering reassurance, comfort, strength, and confirmation of self-worth; connecting with others; giving courage to make a change; facilitating acceptance; and building a disinterested understanding of the world. By becoming aware of and tapping into these seven themes, librarians and other educators can help children more deeply connect with books, thereby increasing the odds of becoming lifelong readers. The detailed descriptions of each book provide plot summaries as well as notes on themes, subjects, reading interest levels, adaptations and alternative formats, translations, and read-alikes. This informative guide will also aid librarians in collection development and bibliotherapy services.

Personalized Reading Nancy Hobbs, Kristen Sacco, Myra R. Oleynik, 2010-11-15 This guidebook provides teachers and

librarians with methods for collaboratively teaching elementary students to select books they will enjoy and which will further their personal growth and information literacy. Motivating young students to read is instrumental for the development of strong information literacy and communication skills, as well as for building a lifelong habit of seeking information and enjoyment through written materials. The authors of *Personalized Reading: It's a Piece of PIE* are three highly experienced teachers, one of whom is a school librarian. This text describes the steps of the PIE program in detail, including chapters on selecting a book, reading it, writing about it, and extending beyond that title. Utilizing the PIE program will teach students to make selections at an appropriate reading level, expand from choosing titles in the same genre or from the same author, and recognize and abandon a book of low interest to them. Within each chapter are explanations of the theories behind each step and practical ideas that teachers and librarians can implement collaboratively in the classroom and library.

Gentle Reads Deanna J. McDaniel, 2008-06-30 This volume recommends some 500 positive, heart-warming stories for young readers—stories of the human spirit and what it can accomplish; stories of loving families surviving crises in positive ways; historical tales full of quick-witted people (especially girls); fairy tales with strong women; true stories of survival; and more. These gentle and uplifting reads span every genre—from science fiction and fantasy, to mysteries, realistic fiction, biographies, and nonfiction. They are Accelerated Reader titles, Reading Counts titles, and Junior Library Guild selections. Primarily intended for grades 5 to 9, this is a list of reading suggestions for the young adult who wants a great read but does not want to be offended. Grades 5-9.
