Shia Dissociation from Usuli School Dr. Alsyyed Abu Mohammad Naqvi, 2013 This book is about the history of the conflict between Shia sects, how different sects originated and what are the basic beliefs of world known Usuli Shia sect i.e. State religion of Iran, and how it differs from the True Shia religion. Usuli sect was founded only 10 centuries ago, and only 5 or 6 so-called Shia scholars accepted it in 4th and 5th Hijra century. After that for many centuries Shia scholars and public hated this man-made religion. Only few centuries ago Allama Hilli and his company propagated it again, and he was the first to call himself Ayatollah (which is forbidden in Islam). Baqir Behbahani used power and all other tactics to suppress the Shia religion and occupied Shia institutions and mosques, so Usuli sect dominated. What are the true teachings of Shia Islam. The religion presented and practiced by Iranian government is not the True Shia Islam, infact they are the biggest enemies of Allah, Infallibles asws and Muslims.

The Suffering of the Ahl ul Bayt and their Followers (Shia) throughout History Mateen J. Charbonneau, 2013-11-12 Imam Baqir (as) said Since the death of the Holy Prophet (s) we Ahl ul bayt have been humiliated, made distant and have been deprived and killed and made to leave our home town and we felt frightened for our blood and the blood of our followers. The cheaters, through their lies, got nearer to the leaders, judges and governors in every city and our enemies told false and invalid traditions relating to their past leaders and quoted narrations that we had never told. They only wanted to humiliate us and wanted to accuse us of falsehood, and wanted to get nearer to their leaders through lies. After the passing away of Hassan (a.s) this became very common during the time of Muawiyah. At that time, in every city, Shias were killed, their hands and feet were cut off and they were hanged on accusations of their being near to us and talking about their love for us.

**Religious Diversity Today** Jean-Guy A. Goulet,Liam D. Murphy,Anastasia Panagakos,2015-12-01 This insightful three-volume set examines faith through the social and cultural perspective of anthropology, sociology, and religious studies, shedding light on the role of religion in the human experience. Why is human suffering and the existence of evil part of the human experience? How does religious doctrine establish one's identity? In what ways does religion interact with and shape the social order? This thought-provoking work ponders these questions and explores the concept of religion from various perspectives: as a tool for self and community-based spiritual awareness, as a set of practices that translates faith into interaction with others, and as a cornerstone of society for those who seek to harness—or hinder—its influence. Written in accessible and inviting language, each volume focuses on a particular dimension of religion. The first book examines religious experience in the modern world and explores suffering in religious faiths, the second volume centers around ritual and pilgrimage, and the last book analyzes the controversial relationship between religion and societies. The content features such thought-provoking topics as death and green burials, sexuality and sex trade, and how and why evil manifests in the human experience.
