La didáctica en cuestión Vera Maria Candau, 1987-10-01 La Didáctica se ocupa de la búsqueda del conocimiento necesario para la comprensión de la práctica pedagógica, y de la elaboración de formas adecuadas de intervención, de modo que el proceso de enseñanza-aprendizaje se realice de manera tal que haga viable, de hecho, el aprendizaje de la mayoría de la población -aún persisten los alarmantes índices de fracaso, absentismo y repetición de curso en los primeros años de la Educación Primaria-. A partir de esta óptica, se hace urgente promover una revisión crítica de la enseñanza y la investigación en Didáctica e indicar caminos para su reformulación y para el desarrollo de la investigación en este área.

Rethinking Centre-Periphery Assumptions in the History of Education Diana Gonçalves Vidal, Vivian Batista da Silva, 2024-03-19 This collection encompasses a period that spans two centuries, in which Brazil serves as a point of departure and of arrival for the analyses of circuits that, intertwined within the national borders, stimulate the reflection about international transits, hybridizations, and appropriations in a process of transnational circulation of subjects and artifacts, in which pedagogical and social models and knowledges are not excluded. The chapters deal with voyages, trajectories, and exchanges, rethinking the beliefs that for a long time drove politicians, educators, and scholars in search of the best ways to construct national systems of education. Firstly, because they presupposed the existence of fixed and univocal relationships that start from the supposed center toward the regions perceived as peripheral, with no margin for examining the reverse circuit. Secondly, they elided the perception of those territories as transitory and resulting from historically shifting geographic and symbolic constructions. Lastly, they ratified the violence of the processes of exclusion based on the attribution of subalternities brought about by a historiographic narrative in education that presents itself as a reference.
