Ecoss de la hermenéutica bíblica en la propuesta ética Emmanuel Flores-Rojas, 2022-11-01 En El pensamiento de Paul Ricouer, Emmanuel Flores-Rojas, nos acerca a unos de los grandes pensadores filosóficos universales de la segunda mitad del siglo XX y principios del XXI y presenta la relación entre ciencias humanistas y las ciencias bíblicas que han sido normalmente tratadas de forma separada sin ninguna conexión. Una aportación al conocimiento de unos de los grandes pensadores filosóficos de la segunda mitad del siglo XX donde se muestra la relación entre ciencias humanas y las ciencias bíblicas, asimismo entre la exégesis, la teología y la hermenéutica bíblica hacia la hermenéutica general y la ética. Para ello, el autor Emmanuel Flores-Rojas, de forma magistral toma como ejemplos los temas centrales del pensamiento de Ricouer, como son el problema del mal, la creencia o convicción, el lenguaje de la fe, el simbolismo en el lenguaje y la libertad humana, entre otros, para crear esas conexiones, esos ecos entre la hermenéutica bíblica y la hermenéutica filosófica. Una obra tanto para especialistas en teología como para estudiosos de la filosofía; apta para personas con inquietudes sobre cómo pensar y razonar su fe sin renunciar al método científico de la hermenéutica. Una obra de filosofía rigurosa y académica, y sin embargo clara, donde poder ver desde las dos orillas de la hermenéutica, la bíblica y la filosófica, el mismo río de la vida y los grandes temas que nos preocupan a todos, y escuchar las voces y ecos a ambos lados de las orillas. En este libro Emmanuel Flores-Rojas esboza parte de la vida y pensamiento de Paul Ricouer para poder pensar la vida y la fe con él y más allá de él.

**Higher Education Policy in Developing and Western Nations** Beverly Lindsay, 2022-03-07 Recognizing that institutes of higher education function simultaneously in local and global contexts, this volume explores the applications of domestic and global policies in a range of industrialized nations in North America and Australia, and developing ones of Brazil, Indonesia, Myanmar, and in Southern Africa and the Caribbean The chapters focus on policies relating to global matters such as diversity, STEM (Science, Technology, Engineering, and Mathematics) innovations, and development amid natural disasters and conflicts. In each case, authors consider how policies were envisioned, how they compare to the realities of implementation, and how far they have been successfully supported by the communities and translated into legislations and formal or informal programs. Based upon decades of research and executive positions by senior scholars and perspectives of emerging professionals, the volume concentrates on motifs that portray relationships among policies and comparative analysis that reveals the need for global collaborations. This important book will be of great interest to researchers, scholars, postgraduates, and government and philanthropic professionals in the fields of higher education, public and educational policy, comparative education, and international affairs.
