The Face-to-Face Book Ed Keller,Brad Fay,2012-05-22 THE BEST MARKETING BOOK OF THE YEAR Winner of the American Marketing Association's Berry-AMA prize In 1848 gold was discovered in California, setting off a frenzy that sent men and women from across the American continent flocking to the West Coast in search of fortune. The Gold Rush brought wealth to some, but most left empty-handed. Today, marketing consultants Ed Keller and Brad Fay say social media is unleashing a new kind of frenzy. Blinded by the shiny allure of sites like Facebook and Twitter, companies are spending billions, pinning their hopes on social media marketing without appreciating how social influence truly functions in the marketplace. That's where Keller and Fay come in. For the past six years, they have undertaken a unique, ongoing study of consumer conversations. The surprising result? Over 90 percent of consumer conversations still take place offline, primarily face to face. The implication is clear: Social media is big and growing, but it is dwarfed by the real world in which people live and interact. Make no mistake. There is a hugely important social wave rolling across the world of business today. New scientific evidence reveals that we humans are fundamentally social beings for whom social influence determines nearly every decision we make. And the greatest impact comes when those conversations happen face to face, as emotions and

nonverbal cues are communicated along with words. In *The Face-to-Face Book*, Keller and Fay offer key insights and recommendations for how businesses, both large and small, can best succeed in today's socially motivated consumer marketplace by looking at how consumers act in real life as well as online. The authors share their extensive research and the stories of companies—large, such as Apple, General Mills, Kimberly-Clark, and Toyota, as well as innovative small businesses—that have hit pay dirt with a balanced and holistic approach to social marketing. They also discuss those that have bet big and lost by overcommitting to online social media alone. *The Face-to-Face Book* does not overlook the extraordinary growth and importance of social media, which offers important new tools for businesses of all kinds; however, the authors caution against placing too grand a bet on online social media at the expense of other forms of social marketing. This book is a celebration of the supremely social nature of all human beings and how that drives the consumer marketplace. It's a story that will leave you thinking anew, and talking.

Social Entrepreneurship and Business Ethics Anica Zeyen, Markus Beckmann, 2018-09-03 Social entrepreneurs are change makers that aim to solve society's unsolved problems. Not surprisingly, social entrepreneurship has thus created high expectations. To better understand the potential as well as the limitations of social entrepreneurship, however, a more nuanced approach is needed in two ways. First, social entrepreneurship is a multi-level phenomenon. It spans macro-level questions as well as meso-level questions and, finally, micro-level questions. If we really want to understand social entrepreneurship, we need to bring together all three levels of analysis and see how they are connected. Second, while social entrepreneurship can certainly produce socially desirable outcomes, we also need a critical perspective to capture potential undesirable effects that social entrepreneurship can cause, often unintendedly, in society, in markets, in organizations, and for individuals. To this end, an ethical perspective can help complement the positive analysis of social entrepreneurship with a discussion of the normative implications of its potential dark side. Looking at social entrepreneurship from both a multi-level analysis and an ethical perspective, *Social Entrepreneurship and Business Ethics* takes the reader on a journey through the bright side as well as the potential dark side of social entrepreneurship for societies, organizations, and individuals. Highlighting both, this book not only seeks to provoke researchers and students to advance their understanding of social entrepreneurship. It also hopes to help practitioners to better realize the positive contributions of social entrepreneurship for society.

Controlling Women Kathryn Kolbert, Julie F. Kay, 2021-07-13 From two lawyers at the forefront of the reproductive rights movement, this fully updated book shares bold strategies meant to help restore and expand reproductive and sexual rights. Reproductive freedom has never been in more dire straits. *Roe v. Wade* protected abortion rights and *Planned Parenthood v. Casey* unexpectedly preserved them. Yet in the following decades these rights have been gutted by restrictive state legislation, the appointment of hundreds of anti-abortion judges, and violence against abortion providers. Today, the

ultra-conservative majority at the Supreme Court has overturned our most fundamental reproductive protections. With Roe toppled, abortion is now a criminal offense in nearly one-third of the United States. At least six states have enacted bans on abortion as early as six weeks of pregnancy—before many women are even aware they are pregnant. Today, 89% of U.S. counties do not have a single abortion provider, in part due to escalating violence and intimidation aimed at disrupting services. We should all be free to make these personal and private decisions that affect our lives and wellbeing without government interference or bias, but we can no longer depend on Roe v. Wade and the federal courts to preserve our liberties. Legal titans Kathryn Kolbert and Julie F. Kay share the story of one of the most divisive issues in American politics through behind-the-scenes personal narratives of stunning losses, hard-earned victories, and moving accounts of women and health care providers at the heart of nearly five decades of legal battles. Kolbert and Kay propose audacious new strategies inspired by medical advances, state-level protections, human rights models, and activists across the globe whose courage and determination are making a difference. No more banging our heads against the Court’s marble walls. It is time for a new direction.
