10 Things Every Writer Needs to Know Jeff Anderson,2011 Whether writing a blog entry or a high-stakes test essay, fiction or nonfiction, short story or argumentation, students need to know certain things in order to write effectively. In *10 Things Every Writer Needs to Know*, Jeff Anderson focuses on developing the concepts and application of ten essential aspects of good writing--motion, models, focus, detail, form, frames, cohesion, energy, words, and clutter. Throughout the book, Jeff provides dozens of model texts, both fiction and nonfiction, that bring alive the ten things every writer needs to know. By analyzing strong mentor texts, young writers learn what is possible and experiment with the strategies professional writers use. Students explore, discover, and apply what makes good writing work. With standardized tests and Common Core Curriculum influencing classrooms nationwide, educators must stay true to what works in writing instruction. *10 Things Every Writer Needs to Know* keeps teachers on track--encouraging, discovering, inspiring, reminding, and improving writing through conversation, inquiry, and the support of good writing behaviors.

Practice with Purpose Debbie Diller, 2023-10-10 In her 30 years as an educator, Debbie Diller has closely examined classroom practice, asking Why? What's the purpose? Watching primary students work successfully at literacy work stations, she wondered with teachers, Why don't we have upper-grade students doing this? Could we kick it up a notch? In her new book, Debbie shows teachers of grades three-to-six how to structure their classrooms so that all students can be successful doing meaningful independent work using literacy work stations. *Practice with Purpose* offers guidance on establishing routines for independent reading and response writing, as well as step-by-step instructions on how to set up and manage a variety of hands-on literacy work stations appropriate for intermediate students. Each chapter includes: how to introduce the station; innovative ways to use materials; what to model to guarantee independence; how to troubleshoot; assessment and accountability ideas; how the station supports student achievement on state tests; reflection questions for professional

development. The extensive appendix includes time-saving tools such as management board icons, graphic organizers, task cards, and recommended Web sites and children's literature.

Teaching Children's Literature Christine H. Leland, Mitzi Lewison, Jerome C. Harste, 2017-11-03 Inviting multiple ways of critically engaging with literature, this text offers a fresh perspective on how to integrate children's literature into and across the curriculum in effective, purposeful ways. Structured around three mantras that build on each other—Enjoy; Dig deeply; Take action—the book is rich with real examples of teachers implementing critical pedagogy. The materials and practical strategies focus on issues that impact children's lives, building from students' personal experiences and cultural knowledge to using language to question the everyday world, analyze popular culture and media, understand how power relationships are socially constructed, and consider actions that can be taken to promote social justice. Written for teachers and teacher educators, each chapter opens with three elements that are closely linked: classroom vignettes showcasing the use of literature and inviting conversation; three key principles elaborating the main theme of the chapter and connecting theory with practice; and related research on the topics and their importance for curriculum. Other chapter features include key issues in implementation, suggestions for working with linguistically and culturally diverse students, alternative approaches to assessment, and suggestions for further reading. A companion website to enrich and extend the text includes an annotated bibliography of literature selections, suggested text sets, resources by chapter, and ideas for professional development. Changes in the Second Edition: Voices from the Field vignettes include examples from inspiring educators who use trade books to promote critical thinking and diversity Updated chapters include information on new technology and electronic resources New references in the principles sections and new resources for further study New children's books added throughout the chapters as well as to the companion website

Using Literature in the Middle School Curriculum Carol Otis Hurst, Rebecca Otis, 1999 In this valuable resource, Hurst and Otis bring together the methods and philosophy for the extensive use of trade books in the middle school curriculum. Novels, picture books, and non-fiction materials are summarized and extended within the context of themes, literary study, and focus books for discussion and activities in the classroom and library. Eighteen fully developed themes enable educators to bring literature into other areas of the curriculum. In addition, 29 literary works are explored through further activities and discussion, again reaching into many curriculum areas.
