Günther Maihold, Manuel Carballo Quintana

Léxico de la política Varios, 2000 Selección de ideas y conceptos relacionados con el análisis político actual, también cuestiona la vigencia de paradigmas sociales y políticos ya tradicionales, profundizando en el verdadero significado e historia de términos como democracia, tolerancia, modernidad o ciudadanía.

Estudios políticos, 1995

El Estado del bienestar, 1996 Esta publicación pretende responder a unas cuestiones muy concretas en el proceso de formación de la Unión Europea y por el nuevo contexto en el que se va a desarrollar la economía internacional después del compromiso conseguido al término de la Ronda Uruguay. Desarrollada desde una perspectiva económica, se pueden distinguir dos partes en la obra: los análisis de la situación de los diferentes países en los que están mezcladas una dimensión macroeconómica con otra más ceñida a las características de sus sistemas de protección social y otra parte en la que se responde a las grandes cuestiones macroeconómicas planteadas al principio.

Transición democrática y gobernabilidad Varios, 2001-01-03 Durante los últimos años, México y América Latina han vivido una confluencia problemática y multifacética de varias transiciones. Nos encontramos con una transición social y cultural de largo aliento, que ha permitido la emergencia de sociedades más complejas y plurales. Asistimos también a una transición económica, en el sentido de que los programas de ajuste y reestructuración aplicados en el subcontinente desde la década de 1980, han reemplazado el modelo de desarrollo de la posguerra. Estudiar los avances y los adeudos, las tensiones y conflictos, los progresos y los rezagos de estos complejos procesos es una tarea central para comprender el presente y el futuro de México y América Latina.
