The Medicalization of Birth and Death Lauren K. Hall, 2019-12-17 Improving how individuals give birth and die in the United States requires reforming the regulatory, reimbursement, and legal structures that centralize care in hospitals and prevent the growth of community-based alternatives. In 1900, most Americans gave birth and died at home, with minimal medical intervention. By contrast, most Americans today begin and end their lives in hospitals. The medicalization we now see is due in large part to federal and state policies that draw patients away from community-based providers, such as birth centers and hospice care, and toward the most intensive and costliest kinds of care. But the evidence suggests that birthing and dying people receive too much—even harmful—medical intervention. In *The Medicalization of Birth and Death*, political scientist Lauren K. Hall describes how and why birth and death became medicalized events. While hospitalization provides certain benefits, she acknowledges, it also creates harms, limiting patient autonomy, driving up costs, and causing a cascade of interventions, many with serious side effects. Tracing the regulatory, legal, and financial policies that centralize care during birth and death, Hall argues that medicalization reduces competition, stifles innovation, and prevents individuals from accessing the most appropriate care during their most vulnerable moments. She also examines the profound implications of policy-enforced medicalization on informed consent and shows how medicalization challenges the healthcare community's most foundational ethical commitments. Drawing on interviews with medical and nonmedical healthcare providers, as well as surveys of patients and their families, Hall provides a broad overview of the costs, benefits, and origins of medicalized birth and death. *The Medicalization of Birth and Death* is required reading for academics, patients, providers, policymakers, and anyone else interested in how policy shapes healthcare options and limits patients and providers during life's most profound moments.

The Kind Mama Alicia Silverstone, 2014-04-15 When did making babies get to be so hard? Infertility is on the rise globally, affecting as many as one in six couples. But instead of considering diet and lifestyle factors, doctors pump their patients full of expensive and invasive fertility treatments. Once pregnant, women just accept that carrying a baby will be the gassy, swollen, irritable, sleepless nightmare that has become the new normal—and then assume that new motherhood will be just as challenging, from breastfeeding woes to screaming fits. It doesn't have to be that way. In *The Kind Mama*, Alicia Silverstone has created a comprehensive and practical guide empowering women to take charge of their fertility, pregnancy, and first 6 months with baby. Drawing on her own experience, as well as that of obstetricians, midwives, nutritionists, holistic health counselors, and others, Silverstone offers advice on getting one's baby house in order through nutrient-rocking foods that heal and nourish, and, once pregnant, gentle ways to boost comfort, energy, and health during each trimester. She helps

readers navigate everything from prenatal testing and birth plans to successful breastfeeding and creating a supportive baby nest. The result is an authoritative, one-stop guide that empowers women to trust their instincts during this vital milestone, while helping them embark on a healthy and more vibrant path to motherhood.

Northwest Natural Childbirth Betsy Hoffmeister, MPA, IBCLC, 2010-11-23 A funny, extremely informative up-to-date guide to pregnancy, childbirth and breastfeeding. Based on the childbirth class series Northwest Natural Childbirth, the workbook stands alone or augments a nine-week childbirth class series. The book covers informed consent, simple pregnancy exercises for a healthy mom and partner, whole foods nutrition, labor and birth, common challenges, preparing the birth un-plan, what to do if you give birth in the car, and the newborn period and breastfeeding. The writing is fresh, modern, and skillful, and the illustrations are gorgeous.

Parenting for Peace Marcy Axness, 2012-01-30 If we really want to change the world, let's raise a generation hardwired for peace and innovation. Marcy Axness details a unique seven-step, seven-principle matrix for helping children achieve self-regulation, self-reflection, trust, and empathy. These qualities are the result of dynamic interactions between genetics and environment, beginning before the child is even born: foundations for this level of health begin forming during the prenatal period, and some aspects of optimal development are influenced as early as conception.

Birth Matters Ina May Gaskin, 2011 A woman who gives birth in the US today is more likely to die in childbirth than her mother was. La puissance du féminin Camille Sfez, 2023-03-14 Découvrez un féminisme d'un nouveau genre qui va faire cheminer les femmes vers l'expression de leur plein potentiel, avec authenticité et dans le respect des autres ! Dans les temps bibliques, les femmes se retrouvaient au moment de leurs règles ou après un accouchement dans une « tente rouge » où une véritable transmission de connaissance du corps et de la puissance du féminin avait lieu. Aujourd'hui ce phénomène est d'actualité dans de nombreux pays où on voit émerger des « tentes rouges » modernes, un lieu où poser armes et fardeaux, un espace où guérir ses blessures et être en contact avec son féminin puissant. Camille Sfez en a fait l'expérience et vous propose un chemin de transformation authentique, parfois douloureux mais profond. Un livre très pratique avec de nombreux rituels : transformer ses croyances sur le corps féminin, célébrer les premières règles d'une jeune fille, savoir entourer une femme suite à une fausse couche, etc. Accompagné de magnifiques témoignages de femmes reconnues sur le thème de la

féminin : Maud Séjournant, Delphine Lhuillier, Lise Coté, Maïtïe Traulin, Francine Caumel Dauphin, Carol Anpo Wi, Marisa Ortolan, etc. Camille Sfez renoue avec son « féminin » en 2005 lors d'un stage de développement personnel en Angleterre. Ses rencontres la mènent à découvrir les tentes rouges, ces cercles de femmes en lien avec la lune et le cycle menstruel. Aujourd'hui psychologue clinicienne et formatrice, Camille Sfez accompagne les femmes en individuel et en groupe pour favoriser l'émergence d'une nouvelle conscience de soi en tant que femme, pour un rayonnement juste et complémentaire du masculin.

Birth Matters Ina May Gaskin, 2011-01-04 Renowned for her practice's exemplary results and low intervention rates, Ina May Gaskin has gained international notoriety for promoting natural birth. She is a much-beloved leader of a movement that seeks to stop the hyper-medicalization of birth—which has led to nearly a third of hospital births in America to be cesarean sections—and renew confidence in a woman's natural ability to birth. Upbeat and informative, Gaskin asserts that the way in which women become mothers is a women's rights issue, and it is perhaps the act that most powerfully exhibits what it is to be instinctually human. Birth Matters is a spirited manifesto showing us how to trust women, value birth, and reconcile modern life with a process as old as our species.
