The Case Against Israel's Enemies Alan Dershowitz, 2008-09-29 Israel is seriously under attack from political, academic, religious, and military enemies, who are making vociferous threats against its continued existence. In this important new book, Dershowitz gives pro-Israel supporters the ammunition necessary to defend themselves.

Prophet from Plains Frye Gaillard, 2010-10 Prophet from Plains covers Nobel Peace Prize winner Jimmy Carter's major achievements and setbacks in light of what has been at once his greatest asset and his greatest flaw: his stubborn, faith-driven integrity. Carter's remarkable postpresidency is still in the making; however, he has already redefined the role for all who follow him. Frye Gaillard, who wrote extensively about Carter at the Charlotte Observer, was among the first to take the Carter postpresidency seriously and to challenge many accepted conclusions about Carter's term in office. Carter was not an irresolute president, says Gaillard, but rather one so certain of his own rectitude that he misjudged the importance of selling himself to America. Ranging across the highs and lows of the Carter presidency, Gaillard covers the energy crisis, the Iran hostage situation, the Camp David Accords, the Panama Canal and other treaties, and the new diplomatic emphasis on human rights. Carter's established priorities did not change once he was out of office, but he was far more effective outside the strictures of presidential politics. Gaillard's coverage of this period includes Carter's friendship with Gerald R. Ford, his work through the Carter Center on disease control and election monitoring, and his association with Habitat for Humanity. Prophet from Plains locates Carter in the tradition of Old Testament prophets who took uncompromising stands for peace and justice. Resisting the role of an above-the-fray elder statesman, Carter has thrust himself into international controversies in ways that some find meddlesome and others heroic.

The End Of Earth Philip N. Moore, 2024-11-01 In this eye-opening exploration, discover how Moses' ancient prophecies on Israel, the coming of Jesus, and the End Times have striking connections to modern-day events. Delve into how these timeless predictions align with the unexpected rise of Donald Trump, Nostradamus' cryptic visions, and the eerie legacy of the Kennedy curse. With meticulous research, this book unravels a complex web of prophetic clues, leading to the conclusion that the mystery surrounding the assassination of JFK and its aftermath has finally been solved. Prepare to be astonished as you uncover the undeniable threads that tie together history's greatest mysteries with prophetic foresight. Is it coincidence, or is there a higher plan at work?
