

Lart Du Roman Kundera

CO Houle

L'art du roman Milan Kundera, 1986 Constitué de conférences, d'articles et d'entretiens, cet essai est centré sur les rapports que Kundera entretient avec ses propres romans autant que sur l'art du roman européen en général. Kundera affirme, dans l'avant-propos, qu'il n'a pas la moindre ambition théorique et que son livre est la confession d'un praticien. De très bons chapitres sur Cervantes, Flaubert, Broch et Kafka. En appendice, l'auteur recense en 71 mots-clés les difficultés et éblouissements qu'ont occasionnés les traductions de ses livres en de nombreuses langues (B. Poirot-Delpech), p. 149-187. Premier choix.

The Art of the Novel Milan Kundera, 2003-04-01 Kundera brilliantly examines the work of such important and diverse figures as Rabelais, Cervantes, Sterne, Diderot, Flaubert, Tolstoy, and Musil. He is especially penetrating on Hermann Broch, and his exploration of the world of Kafka's novels vividly reveals the comic terror of Kafka's bureaucratized universe. Kundera's discussion of his own work includes his views on the role of historical events in fiction, the meaning of action, and the creation of character in the post-psychological novel.

Milan Kundera Known and Unknown Karen von Kunes, 2024-11-14 This collection of essays offers crucial and luminous insights into one of the best-known Czech authors, Milan Kundera, including his lesser known works. With essays that focus on Kundera's poetry and plays, his last four novels written in French, and his nonfiction writings on the novelistic form and translation, *Milan Kundera Known and Unknown* explores the complex and productive career of this globally recognized author. The approach begins by examining Kundera's distinctive literary style, and then how his voice radiated outward from the small communist country of Czechoslovakia to the world. Starting as a poet and playwright, Kundera transcended the Czech literary scene and rose to global prominence with his novelistic style of variations, paradoxes, humor, and clairvoyance into human relationships mixed with political tensions. His multi-dimensional existential topics introduced complex novelistic characters that have reached a large audience and remain evocative. Kundera also critically commented on creative works - his own and of others - thus contributing a unique approach to a specific aesthetic ideal and within the masterworks of world-renowned authors. Chapters on Kundera's aesthetics and form, his philosophical leanings, his relationship to the burgeoning concept of "world literature," and translations of his writings offer new perspectives on his life's work. These insights shed light on Kundera's understudied works, such as his early poetry and his recent French novels, making

connections between his early and later writing, and cementing his literary legacy for English-language audiences.

Philosophy, Art(theory), and Literature (Part 2) Yvanka Raynova, 2025-11-14 This volume is dedicated to the socio-political role of art and aesthetics, as well as the specific relationship between philosophy and literature. Some of the issues discussed here relate to the ideological use and/or abuse of art, and the question of whether art should be engaged or disengaged. These questions, in turn, lead to the need for a more precise philosophical or aesthetic definition of art, and thus to a renewed clarification of the relationship between art and religion, on the one hand, and between literature and philosophy, on the other.

Studies of Literature from Marginalized Nations in Modern China, with a Focus on Eastern European Literature Binghui Song, 2024-04-14 This book presents the first systematic study of the 100-year history of translation, research, reception, and influence of Central and Eastern European literature in China from the late Qing Dynasty to the end of the twentieth century. This study of Eastern European literature from the perspective of Sino-foreign literary relations is based on extensive research into the translation and reception of Central and Eastern European writers such as Milan Kundera, Sándor Petőfi, Henryk Sienkiewicz, Julius Fucik, and Bertolt Brecht. Since the late nineteenth century, the major Chinese writers have paid special attention to the literature of the marginalized Eastern European nations when they have to translate from translations since few of them understand Eastern European languages. The book seeks to identify what attracted the founders of new Chinese literature to Eastern European literature and to define its unique significance for the construction of modern Chinese literature.

La Lecture Comme Pratique Cognitive et Devoir D'éveil Isabelle Gabolde, 2010 Ce travail se veut une contribution au questionnement critique de la modernité du roman. L'analyse minutieuse de l'exploration que Hermann Broch fait de l'art du roman avec sa trilogie, *Die Schlafwandler*, engage le lecteur à interroger plus largement la vocation de la forme romanesque lors de sa métamorphose au premier tiers du vingtième siècle. Le pouvoir d'élucidation dévolu par Broch à ce genre déborde le cadre esthétique. L'auteur y désarticule une conception traditionnelle du temps et offre une interprétation de la situation de l'homme comme sujet de l'histoire (non comme seul sujet agissant, mais comme sujet parlant et producteur de signes). Cette étude questionne, enfin, les liens entre la modernité des ambitions de Broch et les mouvements littéraires qui lui furent contemporains en France, avant de mettre son oeuvre en regard des réflexions et de la pratique artistique de deux de ses lecteurs : Milan Kundera et Henry Bauchau.

Power and Literature Florin Oprescu, 2018-08-21 At the core of this book lies the relation between Power (as socio-political phenomenon) and the novel (as literary discourse). It shows that, in a society facing the excess of power in its various forms, novelistic fiction mediates knowledge about societal Power structures and uses specific strategies to subvert and denounce them. The first part of the study is theoretical: it presents some of the most prominent theories of Power, from

Plato, Machiavelli, Nietzsche to Weber, Dahl, Lukes, Parsons, Bourdieu or Foucault. After offering a critical approach to the concepts of Power defined in the social, political and philosophical fields, it articulates the relations of Power imprinted in literary discourse within a typology of four categories. In the second part of the book, this taxonomy of Power is applied to four key novels in the context of Romanian literary crossroads, showing how novelistic fiction not only assume a critical and subversive position against the excess of Power, but also unveils our fragility when experiencing History.
