The Death of Marco Pantani Matt Rendell, 2012-11-15 The intimate biography of the charismatic Tour de France winner Marco Pantani, now updated to include the 2014 and 2015 investigation into Pantani's death. National Sporting Club Book of the Year Shortlisted for the William Hill Sports Book of the Year Award 'An exhaustively detailed and beautiful book . . . a fitting, ambivalent tribute - to the man, and to the dark heart of the sport he loved' Independent On Valentine's day 2004, Marco Pantani was found dead in a cheap hotel. It defied belief: Pantani, having won the rare double of the Giro d'Italia and the Tour de France in 1998, was regarded as the only cyclist capable of challenging Lance Armstrong's dominance. Only later did it emerge that Pantani had been addicted to cocaine since 1999. Drawing on his personal encounters with Pantani, as well as exclusive access to his psychoanalysts, and interviews with his family and friends, Matt Rendell has produced the definitive account of an iconic sporting figure.

Olympic Gangster Matt Rendell, 2011-04-01 Restlessly vital and possessed of great physical strength, José Beyaert lived many lives. During the Second World War, he boxed and trafficked arms for the Resistance on his bicycle. After it, he became an international cyclist. In 1948, a mile from the end of the Olympic road race around Windsor Park, he broke away alone to take the gold medal and started an adventure that would last the rest of his life. A Tour de France rider in the sport's golden age, José was invited to open a new velodrome in Colombia, South America. He travelled, intending to stay a month. Instead, driven by his thirst for adventure, he stayed for fifty years, becoming by turns athlete, coach, businessman, emerald-trader, logger, smuggler, perhaps even hired killer. Matt Rendell, who knew José Beyaert and met many of his family, friends and associates, tells the fascinating story of an almost-forgotten sporting hero who, incapable of living by other people's rules, lived his many lives on his own terms.

Salsa for People Who Probably Shouldn't Matt Rendell, 2011-09-29 Every week for much of the year, millions of Brits view and vote on Strictly Come Dancing, with the salsa being one of the most popular dances. Dark, enticing Afro-Caribbean rhythms; moving bodies gently interlaced, responding to the music: at first sight, salsa dancing seems to recover something our regimented British lives suppress. For not much more than a fiver, salsa can reconnect us with our bodies. So we seem to think: with perhaps a million Britons taking a class every week, salsa is statistically our national dance. Matt Rendell learned salsa the British way, as an adult, rote-learning figures and routines. His Colombian wife, Vivi, acquired salsa in early

childhood from her parents and grandparents; the dance made her part of her community. A love story about two people from cultures at sometimes comical cross-purposes, *Salsa for People Who Probably Shouldn't* explores how the world's most popular dance went global, how it reached the UK and whether the saucy, salacious salsa of our national fantasy life is really as exotic as we like to think.

Kings of the Mountains Matt Rendell, 2002 For the first time Matthew Rendell tells the little-known story of a Latin American country in which cycling is the national sport, whose sportsmen, denied the enormous benefits of prosperity, cutting-edge technology and unlimited sponsorship, have nevertheless achieved prodigious cycling feats both at home and abroad, and helped to forge for Colombia a heroic national identity. He tells of how, during the fifties, Colombia's own top cycle race, the Vuelta de Colombia, was still being held on dusty, unpaved roads - with consequentially ghastly accidents; of how the first top European cyclists who came to race in Colombia found themselves utterly vanquished by its endless mountain climbs; of how the biography of Colombia's first cycling superstar was written by Gabriel Garcia Marquez. Then, following the story through to the seventies and eighties, he shows how Colombia's cyclists began to make their mark abroad, even in the ultimate competition, the Tour de France - and, while they may have lacked the team discipline and the pace training to win the race itself, how to them the premier accolade was to become King of the Mountains, by beating everyone else in the Tour's most drainin

Heart Attacks Are Not Worth Dying For Michael Ozner,2021-03-22 In America, we have some of the best doctors and hospitals worldwide. Despite this, there are more than 800,000 deaths in the United States each year due to cardiovascular disease, namely heart attack and stroke. The good news is that we now have the ability to prevent heart disease with healthy lifestyle choices and highly effective medications when needed. There needs to be a paradigm shift in our medical approach—we need to become proactive and prevent heart disease rather than reactive and wait for this formidable enemy to strike. Heart Attacks—Are Not Worth Dying For provides a straightforward pathway for heart disease prevention. Don't wait—the time to act is now.

Surviving a Successful Heart Attack Mike Stone,2005-09-16 At 51 I had a heart attack, just like a lot of other hi-tech people. I went to hospital rehab. I bought a bicycle and started riding. I even attended one of those seminars to learn how to rearrange my priorities in life a little better which would help me manage my stress better. But when the statins (cholesterol lowering medication) kicked in, even rehab didn't prepare me for the nightmare that I went thru the following 2 years - until I rebelled and started researching for myself and couldn't believe what I had discovered - and maybe what really caused my heart attack!!!See press release at <http://www.prweb.com/releases/2005/11/prweb309178.htm>Also available in E-book format: See <http://www.lulu.com/content/160282>.AUGUST 2005 - SECOND EDITION!

Heart attack survival guide Mark Greener,2011

The Heart Attack Survival Guide Mark Greener,2012-04-19 Coronary heart disease, the commonest cause of heart attacks, remains the leading cause of death in the UK, despite rates falling in the last few decades, despite numerous therapeutic advances and despite increased awareness. Rates are especially high in economically deprived communities, some ethnic groups and at certain ages; but everyone's at risk. This book aims to help people at high risk prevent their first or subsequent heart attack as well as helping those who experience a heart attack get back to a normal life as soon as possible. As this book shows, combining drugs and lifestyle changes can help you survive - and prevent - heart attacks. Topics include: The anatomy and physiology of the cardiovascular system; Modifiable and non-modifiable risk factors such as smoking, diet, age, family history and sex; Causes and types of heart attack; Why heart attacks are more common at certain times of day; Prognosis - what makes survival more likely; Symptoms in men, women and the elderly; Diagnosis and treatment; After a heart attack - physical, psychological and lifestyle factors; Preventing heart attacks; Caring for a loved one after a heart attack.
