Economía paso a paso Fernando Schpoliansky,2025-09-01 ¿Por qué, en la Argentina, seguimos atrapados en los mismos problemas económicos década tras década? Inflación, déficit, endeudamiento, pobreza. Las palabras se repiten como un eco que atraviesa generaciones. Pero ¿no habría que cambiar, entonces, la forma en que hablamos de economía? Dejar atrás las fórmulas, los gráficos complejos y animarnos a pensar desde otro lugar. Economía paso a paso ofrece una introducción clara, accesible y libre de tecnicismos a las principales nociones económicas que, aunque parezcan lejanas, afectan nuestra vida diaria: precios, empleo, impuestos, deuda, distribución de la riqueza, entre otras. Con ejemplos concretos y un lenguaje directo, Fernando Schpoliansky acerca estos temas a todos aquellos que no tienen una formación académica específica en economía. No se trata de ofrecer una mirada única, sino de invitar a pensar, a preguntar, a conversar. Su objetivo es claro: ayudar a construir una ciudadanía más informada, y, por lo tanto, más libre.

ESTUDIOS SOCIALES 11 F PRIMA GRUPO EDITORIAL, El libro de undécimo de los Estudios Sociales de la Editorial F Prima , retoma de forma literal lo tipificado en el programa de Estudios Sociales vigente en el MEP, e incorpora las diversas perspectivas y temáticas por nivel y periodo, por lo que esta editorial se ha convertido en vanguardia para la producción de

materiales didácticos, cuya población meta es el profesorado y el estudiantado de la educación secundaria en Costa Rica. Desde el enfoque privado, coadyuvamos al gobierno costarricense en su empeño de formar ciudadanos informados, con un espíritu crítico, propositivo y colaborativo, para que enfrenten los desafíos sociales, económicos, políticos y culturales que plantea el sistema mundializado, de ahí la importancia de este texto para el estudiante. Este documento no es un simple libro de contenidos, sino que va más allá de la transmisión de los conocimientos a través de la memoria, es decir, por medio del desarrollo de las actividades de mediación tipo taller, se proporciona la construcción del conocimiento y el desarrollo de habilidades disciplinarias -propias de la historia y la geografía-, así como las de tipo social y personal, donde se cuestiona el presente, a partir de una valoración del pasado de cara al futuro de la sociedad costarricense.

Cosa de locos Martín Patricio Melgar, Emilio Diego Velazco, 2025-03-06 Las publicaciones que el Foro de Ciencia y Tecnología para la Producción ha editado desde su creación siempre tuvieron eje en la actividad de vinculación tecnológica, con el fin de fortalecer al sistema nacional de innovación, integrado por las entidades de ciencia y tecnología, las empresas y el Estado. Estas publicaciones siempre estuvieron dirigidas a un público específico y con formación universitaria o empresarial. En este caso nos encontramos con un trabajo realizado por dos miembros del Foro, que incluye la temática de la innovación y sus alcances; pero dirigido al público general, usando un lenguaje simple a pesar de la complejidad de los temas tratados. Esta metodología de escritura podría ser también aplicada en futuras publicaciones más específicas sobre ciencia, tecnología e innovación, priorizando el entendimiento general al lenguaje técnico. Entendemos esto como un desafío interesante, ya que las cuestiones que hacen a la innovación, la aplicación de la tecnología y sus derivaciones no deberían ser cosa exclusiva de entendidos. El contenido de este libro enfoca el problema de nuestro país por fuera de las tradicionales disputas político-ideológicas internas; los lectores decidirán si se ha logrado o no. Lo interesante es ver un punto de vista diferente de cómo impactan el desarrollo tecnológico y los procesos innovativos en el plano geopolítico.

Familias empresarias y grandes empresas familiares en América Latina y España Paloma Fernández Pérez, Andrea Lluch, 2015-07-07 Son numerosos los libros y artículos que analizan las claves del éxito de las familias empresarias y grupos familiares que perduran en el tiempo, si bien la gran mayoría de los negocios registrados como empresas desaparecen en dos generaciones. Aunque esos datos pudieran hacer pensar en el fracaso de este tipo de empresas, a través del estudio de los mayores negocios familiares de ocho países de América Latina y España a lo largo de más de un siglo, esta obra pone de manifiesto que las familias empresarias desaparecen de una empresa y surgen en otras continuando con la actividad a lo

largo de décadas en un continuo proceso de adaptación, diversificándose en sectores que presentan mayores expectativas de rentabilidad o seguridad, alterando para ello la denominación jurídica de los negocios, el organigrama o los esquemas de gobierno. Con la metodología propia de la historia empresarial que combina archivos públicos y privados, entrevistas con un enfoque interdisciplinar, y con la participación de veintidós especialistas de once países, este libro revela que en América Latina y España son las familias empresarias, a través de empresas independientes o grupos, la clave histórica de la riqueza de los territorios en los que se desarrollan. Esta monografía se acompaña por un portal, accesible a través del sitio web de la Fundación BBVA, en el que se presentan distintos recursos adicionales como un análisis estadístico y gráfico de los datos resultado de esta investigación, además de una base de datos con la información sobre los mayores negocios familiares en los nueve países analizados para el año 2010. El conjunto de esta obra proporciona una herramienta de utilidad para un público lector del ámbito académico, así como para consultores y gestores económicos.
