The Informed Citizen Wanda Schindley,1997 The Informed Citizen is about interacting in communities that reach from the classroom to cyberspace to explore today's issues and develop informed opinions, effective arguments, and polished writing. The text is founded on classical rhetoric, the schema that seems most accessible to students. Fundamental, also, are the ideas that English class does not have to be dull; that everyone has something to say; that argument permeates discourse; that building skills is not only important but also exciting; and that thinking is the most important tool for writing, relating, living, and contributing.

Lesson Plans for Teaching Writing Chris Jennings Dixon,2007 Why do students often graduate from high school unprepared for college writing? And what can we do about it? These are the questions that a group of classroom teachers set out to explore. Over the course of seven years, a group of middle, high school, college, and university teachers participated in a federally funded writing coalition project to implement innovative approaches to teaching writing. Together they developed this series of lesson plans designed to make writing both fun and an integral part of diverse curricula. Practical is the recurrent motif of each teaching strategy. Developed by real teachers in real classrooms, the lessons are grouped into seven categories: writing process, portfolios, literature, research, grammar, writing on demand, and media. Each lesson follows a standard format that includes purpose of the activity; necessary preparation; required props and materials; process and procedure for implementation; instructional pointers and/or possible pitfalls; and reflections from the teacher that provide behind the scenes insights.

Cultural Critique and the Global Corporation Purnima Bose,Laura E. Lyons,2010 This book examines the stories that corporations tell about themselves--and explores the powerful influence of corporations in the transformation of cultural and social life. Six case studies draw on CEO memoirs, annual reports, management manuals, advertising campaigns, and other sources to analyze the self-representations and rhetorical maneuvers that corporations use to obscure the full extent of their

power. Images of corporate character and responsibility are intertwined with the changes in local economy, politics, and culture wrought by globalization and neoliberalism. The contributors to this volume describe the effects of specific corporate practices on individuals and communities and how activists and academics are responding to labor and environmental abuses.
