Court of Justice of the European Communities

Immigration and Asylum Law and Policy of the European Union Kay Hailbronner, 2024-01-22 The harmonization of the different European legal systems has reached the field of asylum and immigration policy. The Maastricht Treaty has established the legal basis for a common migration policy. Numerous resolutions, recommendations, joint positions and actions were adopted by the EU Council based on the 'third pillar' in the Maastricht Treaty. Within the 'first pillar' the European Community has enacted regulations on visa policy based on Art. 100c EC - Treaty. Additionally, several agreements with third countries on immigration issues were set into force. Immigration and Asylum Law and Policy of the European Union comprehensively describes the present state of the harmonization process concerning migration policy in the European Union. Particular emphasis is laid on the legal status of third-country nationals with regard to entry and residence. Furthermore, the gaps within EU regulations are evaluated in an attempt to search for a homogenous European migration policy.

Expats in Germany - Inbound and Outbound Nicole Elert, Christopher T. Brooks, 2017-04-10 The increasing internationalization of business leads to a cornucopia of differing cross-border exchanges in one's daily work. Participants and other beneficiaries of this internationalization include not only multi-national companies but also SMEs (small and mid-sized enterprises), for which the increased global market access offers substantial opportunities. With the growth of internationalization, too, comes an increase in employee assignments. In business practice, the number of questions from foreign companies, management, HR, tax and legal professionals, investors and non German employees etc., is growing. In order to be certain that sending employees to or from Germany on work assignments can take place as smoothly and efficiently as possible, relevant questions asked by companies and workers need to be taken into consideration. This text does just that with a focus on answering common expat-relevant questions posed by professionals. It is a reference work for those foreigners subject to and applying German law.

Service Provision and Migration Simon J. Tans, 2017-07-03 This book investigates how liberalization of service provision related to movement of natural persons takes shape within EU and WTO law. It provides an overview and analysis of the implementation of the identified obligations derived from EU law and the GATS in the Dutch legal order and that of the United Kingdom. A thorough investigation of the chosen strategies in each legal order is provided, including a comparison of

the differences and similarities between these strategies. The resulting overview leads to insight into the tension that exists between the international obligations related to service mobility of the two investigated states on the one hand, and their migration law and access to the labour market legislation on the other.

EC Employment Law Catherine Barnard, 2006 'EC Employment Law' provides a thorough and authoritative guide to EC law on employment, within a social and economic context. Extensive coverage is given of complex equality caselaw and legislation, and many issues not covered elsewhere are examined.

The Legal Framework and Social Consequences of Free Movement of Persons Within the European Union

Elspeth Guild, 1999 This book marks thirty years of progress in realizing the free movement of persons in the European Union. Its origins are to be found in a conference held at King's College, London, organised by the Immigration Law Practitioners' Association and the Centre of European Law at King's College, London, with the sponsorship of the European Commission. The book is divided into two sections: the first deals with the implementation of rights of nationals in the European Union to move, reside and exercise economic activities in other Member States. The second part looks at the development of European law regulating the movement, residence and economic activities of third country nationals within the territory of the Union. Each of the two parts, in its own way, analyzes the relation of the black letter law to the social consequences attendant on migration within the European Union. This is an invaluable analysis for practitioners and academics concerned with the development of a legal regime on migration in the European Union.

Immigration and Employment Laura Devine, 2000 Immigration law rules and procedures affecting employment are complex and constantly changing to reflect conditions in the market. At a corporate level, the growth of global business has led to larger numbers of employees and their dependants seeking to live and work within the UK. and streamlined system of immigration control. Its provisions, together with those of the Code of Practice on discriminatory practice, directly affect employers and their employees. as those advising employees, understand the law and the different procedures that must be followed when employing overseas nationals

50 Years of the European Treaties Michael Dougan, Samantha Currie, 2009-02-06 The essays which appear in this work are based on the papers presented at a two-day conference held in Liverpool in July 2007 to celebrate the 50th anniversary of the signing of the Treaty of Rome establishing the EEC. The collection reflects critically upon some of the EU's historic characteristics and speculates imaginatively on some of the diverse challenges facing the Union in the future. Contributions from both established and emerging scholars of EU law and policy are united by two main themes: the paradox of the resilient yet unstable basis of the Union's constitutional fundamentals, and the ever-contested balance between the EU's core economic mission and its broader social values and aspirations. For any student, scholar or practitioner interested in the dynamic nature of the constitutional relationship between the Union and its Member States, and in the complex

tensions underpinning the EU's substantive policies, these essays will be essential reading.

EU Employment Law Catherine Barnard, 2012-08-09 The new edition of this major work is a must-buy for all students studying EU employment law. It offers comprehensive coverage of an increasingly complex subject, tackling both case law and legislation, and provides detailed analysis of the EU's Directives and their impact on employment law.

The Legal Status of Third Country Nationals Resident in the European Union Helen Staples, 1999-10-19 4. Free movement rights

Thirty Years of Free Movement of Workers in Europe Jean-Yves Carlier, Michel Verwilghen, 2000 This volume contains the proceedings of the European conference held in Brussels from 17 to 19 December 1998 on the subject of Thirty Years of Free Movement of Workers in Europe. Why Thirty Years when Article 39 (ex 48) of the Treaty of Rome already provided for the free movement of workers as early as 1957? Because this freedom did not actually come about until 15 October 1968, when two acts constituting the required secondary legislation were passed. These were Regulation 1612/68 on freedom of movement for workers, and Directive 68/360 on the abolition of restrictions on movement and residence within the Community for workers of Member States and their families. Since then, new legislation and case law have expanded this right from the free movement of workers to the free movement of persons. Case law has played an important role, pushed forward by the determination - even the stubbornness - workers and individuals have shown to exercise their rights. Before the Maastricht Treaty of 1992, such citizens performed a public service. Is that not sufficient reason to identify them fully - first and last name - when referring to court judgments? And why not acknowledge, by giving the full name of the defendant, that it is not only national, regional or local government bodies which are impeding this freedom, but also social security authorities and private groups?
