**Sacred Geometry** Stephen Skinner, 2006 The author shows how the beauty in nature, art, and architecture is based on an underlying geometry and reveals that there is a hidden order behind their creation.

**The Encyclopedia of Secret Signs and Symbols** Adele Nozedar, 2024-05-07 The aim of this book is to seek a true understanding of the secret signs, sacred symbols, and other indicators of the arcane, hidden world that are so thickly clustered around us. During this process, we'll shed light on the cultural, psychological, and anthropological nature of our signs and symbols. We'll also be surprised to discover that many of the everyday things we take for granted can hold hidden secrets, and by having the key to this knowledge we'll gain an insight into the minds and concerns of our forbears who constructed these symbols-- Provided by publisher.

**Awakened Sun** Gerald P. Stewart, 2024-11-11 PRINTED IN COLOR This title includes a series of never-before-seen photographs which can only be described as supernatural. In order to maintain depth and preserve authenticity of these images, this book has been formatted for color print. ON A QUEST FOR TRUTH I UNEARTHED LIFE'S GREATEST MYSTERY The 11:11 phenomenon has profoundly affected the lives of a great number of people on a global scale. My personal relationship with the code goes back more than forty years, to a chance encounter in the eighties which signaled the start of a near lifelong quest. I often refer to the phenomenon as a code because that's precisely what it is. The 11:11 code being the trigger to expand one's awareness to a different reality than that which conventionally surrounds them - a matrix game system so complex it's beyond even their wildest imagination. A place which no person can genuinely define, nor any feature film could ever accurately portray. The 11:11 code is our ticket out. Not only acting as an invitation, but also as an opportunity to survive this ever-changing world, and ultimately our chance at a new beginning. It starts out with a spiritual awakening, which is merely the gateway to an ascension process, so it doesn't stop there. I describe how I uncovered the code to expose its hidden meaning, which in turn permitted me to decipher life's greatest mystery. I meticulously piece together the puzzle prior to its reveal and back it up with undeniable proof. I leave you with my perspective in an up-to-date summary which clearly defines where we stand today, in addition to some bonus material, including: • An outline of my 'Three-Key-Tips'...for a Successful Spiritual Journey - three fundamental principles which I follow that have positively altered my attraction. • A summary of my 'To-Do List'...for Achieving Ascension - twenty-five steps which I have taken that are

delivering some truly remarkable results. • A selection of my creative writing efforts purposefully chosen with you in mind. • An extensive notes section for those who wish to do the research themselves. Join me on this exploration of my life experience. A journey through hardship, trauma, loneliness, and deceit, leading to self-discovery, righteousness, forgiveness, and truth. This book is so much more than just a true-to-life account of one man's suffering and his continuous struggle, it's my inspirational testimony of being sanctified by God through Christ while on the road less travelled. The narrow path which first steered me in a direction that I never imagined or ever dared dream, before faithfully guiding me directly to the ultimate revelation...it's all about the Sun.

**Return to Meaning** Andrew Cort,2008-04-28 If God exists, and God is all powerful and good, why did God create an imperfect world? Does religion have a credible answer? Morality, as secularists know, does not require a deity. Blind faith, as atheists know, often leads to hatred and war. Taking scriptural stories as literal history, as scientists know, borders on the nonsensical. There has to be more. And there is. In their most important sense, these are symbolic psychological stories. Everything that happens - the wars, the joys, the obstacles that are overcome - must occur in one's own soul. In other words, all the great myths and scriptures are how-to manuals for Initiation. In this groundbreaking work, Andrew Cort describes the inner journey of Creation and Return that is revealed by the Greek Myths, the Torah, the Gospels and the Qur'an. He demonstrates the stunning unity of our western religious traditions, whose common aim is to enlighten the soul and restore a sense of meaning to our lives and culture.

**The Christian Witchcraft Grimoire** Richard Ravenbrook,2025-09-27 Faith and magic don't have to be separate. For too long, the mystical side of Christianity has been hidden, misunderstood, or dismissed. But behind scripture, sacraments, and tradition lies a deeper current—a living stream of wisdom and power that Christians once knew well. The Christian Witchcraft Grimoire: Volume II continues the journey of rediscovery. Inside, you'll find a guide to blending devotion and practice, prayer and spellwork, ritual and scripture. This is not about leaving Christianity behind—it's about uncovering the mystery already woven into it. In these pages you'll explore: Early Christian traditions with mystical and magical roots Sacraments as tools for transformation and connection The role of sacred symbols, sigils, and divine names The balance of the Divine Feminine within Christian spirituality Practical rituals, correspondences, and meditations you can use today This book is for seekers who feel at home in both church and circle, who long for a faith that is alive, embodied, and empowering. The Christian path is richer than you've been told—step into the mystery, and find the magic that has been waiting for you all along.

**The Damby Tradition of the Kono People of Sierra Leone West Africa** Kumba Femusu Solleh,2011-08-17 The

Damby concept is very similar to the concept of DNA: protein chains from where every human or every living creature gets its hereditary traits. The earth was originally farmland created for a family. Animals that inhabited the air; water and earth were venerated by all cultures in the ancient world and viewed as symbols of the invisible forces; through whom he worships the Divine Power for the creative impulses of the gods readily respond to them. All cultures of the world reverent some animals as symbolism of divinity. The the forms and habits of these emblematic creatures : the media of existence closely relate them to the various generative and germinative powers of Nature thus, were viewed as evidence of Omnipresence. The Kono understood that all life has its origin in water. Therefore, he chose the fish as the symbol of the life germ. This fish as his emblem of the life germ is called Sa-neh (eel); meaning Sa, the ancient God is here. Furthermore, he went a step further and chose other kinds of animals to represent the divine for each - original founding fathers of the Kono Tribe. These animals and plants became known :Tana of the male heads of each founding family . However, the basic reasons behind such choices were based on a simple belief that each Damby head was a product of his Damby : his Tana or Totemic Animal. Therefore, the totemic animals were depicted as deities; and each family was prohibited from eating his or her totemic animal or food. At first, twelve animals and other forms of food were chosen and each family member had its own animal or other food form as the family's Tana. The animals and their explanations are giving in the book.

homo mysticus Juan Valdez,2022-08-17 homo mysticus: ex machina By: Juan Valdez Homo mysticus is a book about the science of mysticism, seen through the lens of ancient cosmogony and sacred geometry. This book connects the spiritual and the otherworldly to the practical and tangible in a refreshingly down to earth way. This book is a must read for anyone interested in the subjects of both mysticism and science.

Health and Well-Being Considerations in the Design of Indoor Environments González-Lezcano, Roberto A.,2021-06-25  
Indoor residential environments have a direct influence on human health, both in developed and developing countries. Significant levels of indoor pollution can make housing unsafe and can negatively impact on human health. Housing, therefore, is a key health factor for people all over the world, and various parameters such as air quality, ventilation, hygrothermal comfort, lighting, physical environment, building efficiency, and others can contribute to healthy architecture and the conditions that can result from the poor application of these parameters. Health and Well-Being Considerations in the Design of Indoor Environments addresses issues concerning indoor environmental quality (IEQ), including air quality and ventilation, access to daylight and views, acoustic conditions, and control over lighting and thermal comfort, as well as the impact that this environment can have on human health and mental well-being. The book also investigates the functional aspects of interior design such as whether the layout provides easy access to tools and sufficient space for occupants. It also considers energy demand and building energy losses due to such issues as air renovations and enclosure infiltrations. Covering topics such as sustainable design, pollution, building materials, and lighting, this book is an effective resource for students, professors, academicians, researchers, architects, designers, planners, engineers, interior designers, building managers, construction companies, and other industry professionals looking to increase building occupant satisfaction by considering all aspects of IEQ.

*The Dawning of the Golden Age of Aquarius* Albert Amai Ph. D.,2012 We are at the threshold of a transitional period from the Age of Pisces to the Age of Aquarius. What should we expect from this coming New Era? What are its signs? What is the fate of human spirituality? What will the new concepts of God and of religion be? This book attempts to answer these questions based on well researched sources complemented and endorsed by cosmology, archeology, psychology, religion, Near East studies, and mythology, among other scientific disciplines. The book also intends to clarify the confusion created by some Protestant religious leaders and sensationalistic writers who have misinterpreted the signs of the transitional period

as the end of the world. The truth is that we are witnessing a shift of ages, that is, the slow evolution from the Piscean Era to the commencing of a new worldwide social order, a new chapter in human history called the Aquarian dispensation. The huge conspiracy propounded by false prophets and some New Age writers, whether overtly or covertly, feeds the fear and anxiety of ordinary people with unfounded apocalyptic propaganda. This book attempts to give the reader an accurate perspective regarding the planetary transformations that are taking place; it offers hope and inspiration as we approach the Golden Age.
