The Employments of Women: A Cyclopaedia of Woman's Work Virginia Penny, 2020-09-28 The great, urgent, universal wants of mankind, in all classes of society, are food, clothing, shelter, and fuel. After these come the comforts and luxuries pertaining to the condition of those in easy circumstances. Above and beyond these animal wants, but of nearly equal importance, are those relating to the mind—written and printed matter, oral instructions, as lectures and sermons, and the handiwork of the fine arts. These, in addition to health, freedom, and friends, comprise the greatest blessings man enjoys. I would add that the means of transit are necessary to make him entirely independent. Nearly all honest occupations are founded on these wants; but they have been divided and subdivided until their name is legion. The contents of this volume might be arranged in the same way that the articles exhibited in the Crystal Palace of London were, under the heads—Producer, Importer, Manufacturer, Designer, Inventor, and Proprietor. But we think the arrangement pursued, though rather irregular, may be quite as convenient. So great is the variety of subjects treated, that it is difficult to condense the contents in a smaller compass. The general difference in character and habits of those engaged in various occupations—their comparative morality and intelligence, the effects of a decline in wages, the effects of trades-unions, are all, more or less, involved in this subject of employments; also the opinions of the working classes on machinery and its results. Employments that have for their object the health, comfort, and protection of mankind—those that produce the necessities and the luxuries of life—those for amusement and capable of being dispensed with—are all treated of to some extent.

Five Hundred Employments Adapted to Women Virginia Penny, 1888 The object of this work is to show women where the productive fields of labor are, and to enable every one to find the kind of employment best adapted to her tastes. It embraces the results of over three years' constant labor in perfecting its details. -- Miss Penny.--Title page.

The Employments of Women: A Cyclopædia of Woman's Work Virginia Penny, 2019-12-19 In *The Employments of Women: A Cyclopædia of Woman's Work*, Virginia Penny compiles a comprehensive exploration of women's roles in the workforce during the 19th century, presenting a meticulous collection of occupations available to women in her time. The book is characterized by its encyclopedic structure, offering concise yet informative entries that reflect Penny's commitment to illuminating the socio-economic context that constricted women's employment options. Written in an accessible style, Penny combines empirical research with a passionate advocacy for women's rights, producing a critical examination of societal norms and gender roles that were prevalent in Victorian society. Virginia Penny, a pioneering advocate for women's employment rights, dedicated her career to the advancement of women's working conditions and opportunities. Her own experiences as a professional woman amidst the restrictive societal expectations of the 1800s fueled her determination to document and elevate women's contributions to the labor force. This unique perspective not only enriches her writing but

also situates her work within the larger feminist movement of her era, bridging the gap between oppressive norms and progressive ideals. This essential text is a must-read for scholars and general readers alike who seek a deeper understanding of women's history and the evolution of labor rights. Penny's work remains relevant today, offering insights that resonate with ongoing discussions about gender equity in the workforce. By delving into this thorough compendium, readers will gain an appreciation for the historical struggles women faced and the significant progress achieved in the fight for employment rights.
