Farley Mowat

Otherwise Farley Mowat, 2009-10-13 A Canadian icon gives us his final book, a memoir of the events that shaped this beloved writer and activist. Farley Mowat has been beguiling readers for fifty years now, creating a body of writing that has thrilled two generations, selling literally millions of copies in the process. In looking back over his accomplishments, we are reminded of his groundbreaking work: He single-handedly began the rehabilitation of the wolf with *Never Cry Wolf*. He was the first to bring advocacy activism on behalf of the Inuit and their northern lands with *People of the Deer* and *The Desperate People*. And his was the first populist voice raised in defense of the environment and of the creatures with whom we share our world, the ones he has always called *The Others*. *Otherwise* is a memoir of the years between 1937 and the autumn of 1948 that tells the story of the events that forged the writer and activist. His was an innocent childhood, spent free of normal strictures, and largely in the company of an assortment of dogs, owls, squirrels, snakes, rabbits, and other wildlife. From this, he was catapulted into wartime service, as anxious as any other young man of his generation to get to Europe and the fighting. The carnage of the Italian campaign shattered his faith in humanity forever, and he returned home unable and unwilling to fit into post-war Canadian life. Desperate, he accepted a stint on a scientific collecting expedition to the Barrenlands. There in the bleak but beautiful landscape he finds his purpose – first with the wolves and then with the indomitable but desperately starving Inuit. Out of these experiences come his first pitched battles with an ignorant and uncaring federal bureaucracy as he tries to get aid for the famine-stricken Inuit. And out of these experiences, too, come his first books. *Otherwise* goes to the heart of who and what Farley Mowat is, a wondrous final achievement from a true titan.

Sea of Slaughter Farley Mowat, 1985-04-01

Eastern Passage Farley Mowat, 2010-10-12 Following Farley Mowat's bestselling memoir, *Otherwise*, the literary lion returns with an unexpected triumph. *Eastern Passage* is a new and captivating piece of the puzzle of Farley Mowat's life: the years from his return from the north in the late 1940s to his discovery of Newfoundland and his love affair with the sea in the 1950s. This was a time in which he wrote his first books and weathered his first storms of controversy, a time when he was discovering himself through experiences that, as he writes, go to the heart of who and what I was during his formative years as a writer and activist. In the 1950s, with his career taking off but his first marriage troubled, Farley Mowat buys a piece of land northwest of Toronto and attempts to settle down. His accounts of building his home are by turns hilarious and

affecting, while the insights into his early work and his relationship with his publishers offer a rare glimpse into the inner workings of a writer's career. But in the end, his restless soul could not be pinned to one place, and when his father offered him a chance to sail down the St. Lawrence, he jumped at it, not realizing that his journey would bring him face to face with one of Canada's more shocking secrets - one most of us still don't know today. This horrific incident, recalling as it did the lingering aftermath of war, and from which it took the area decades to recover, would forge the final tempering of Mowat as the activist we know today. *Eastern Passage* is a funny, astute, and moving book that reveals that there is more yet to this fascinating and beloved figure than we think we know.

Sibir Farley Mowat, 2012-12-18 Here is a Siberia unheard of in the West. Once the most remote place of exile in all of Russia, Mowat describes it as a burgeoning land of opportunity and growth. Granted extraordinary freedom to visit places rarely seen by any westerner since 1917, Farley Mowat and his wife, Claire, travelled more than 29,000 miles over mountains, steppes, taiga and tundra to meet the people who have chosen to make Siberia their home and livelihood. With his classic exuberance and wit, Mowat brings to life a place and a people who share the top of the world with us - their hopes and aspirations, their humour, and their dedication to the dramatic awakening of Sibir, the Sleeping land.

Never Cry Wolf Farley Mowat, 2015-08-04 This international bestseller that changed the way we look at wolves opens new horizons in understanding animal nature and intelligence (Newsday). In 1948, Farley Mowat landed in the far north of Manitoba, Canada, a young biologist sent to investigate the region's dwindling population of caribou. Many people thought that the caribous' conspicuous decline had been caused by the tundra's most notorious predator: the wolf. Alone among the howling canine packs, Mowat expected to find the bloodthirsty beasts of popular conception. Instead, over the course of a summer spent observing the powerful animals, Mowat discovered an animal species with a remarkable capacity for loyalty, virtue, and playfulness. Praised for its humor and engrossing narrative, *Never Cry Wolf* describes a group of wolves whose interactions and behaviors seem strikingly similar to our own. Mowat humanizes these animals that have long been demonized, turning the widespread narrative of the savage wolf on its head and inspiring many governments to enact protective legislation for the North's most mysterious creature.

The World of Farley Mowat Farley Mowat, Peter Davison, 1982

People of the Deer Farley Mowat, 1985-06-01 In 1886, the Ihalmiut people of northern Canada numbered seven thousand; by 1946, when Farley Mowat began his two-year stay in the Arctic, the population had fallen to just forty. With them, he observed for the first time the phenomenon that would inspire him for the rest of his life: the millennia-old migration of the Arctic's caribou herds. He also endured bleak, interminable winters, suffered agonizing shortages of food, and witnessed the continual, devastating intrusions of outsiders bent on exploitation. Here, in this classic and first book to demonstrate the mammoth literary talent that would produce some of the most memorable books of the next half-century, best-selling author

Farley Mowat chronicles his harrowing experiences. *People of the Deer* is the lyrical ethnography of a beautiful and endangered society. It is a mournful reproach to those who would manipulate and destroy indigenous cultures throughout the world. Most of all, it is a tribute to the last People of the Deer, the diminished Ihalmiuts, whose calamitous encounter with our civilization resulted in their unnecessary demise.

Owls in the Family Farley Mowat, 2009-01-13 Every child needs to have a pet. No one could argue with that. But what happens when your pet is an owl, and your owl is terrorizing the neighbourhood? In Farley Mowat's exciting children's story, a young boy's pet menagerie - which includes crows, magpies, gophers and a dog - grows out of control with the addition of two cantankerous pet owls. The story of how Wol and Weeps turn the whole town upside down is warm, funny, and bursting with adventure and suspense.

And No Birds Sang Farley Mowat, 2003 Farley Mowat's antiwar masterpiece speaks directly to the times in which we live today. It is a powerful reminder of the human cost of war. In July of 1942, Mowat was an eager, idealistic infantry lieutenant barely out of his teens, bound for Europe on a troop ship and impatient to see action. This powerful true account of the action he saw, and against all odds survived, evokes the terrible reality of warfare with an honesty and clarity fiction can only imitate. Here is the agony and the antic humour, the tragedy and the tedium, the special camaraderie shared only by those who have fought a war. Here, too, is the impassioned anger of one soldier who discovers he can no longer accept the bloody carnage that engulfed him near the end of the Italian campaign: I was staring down a vertiginous tunnel where all was black and bloody and the great wind of ultimate desolation howled and hungered. I was alone...relentlessly alone in a world I never knew...and no birds sang. A timeless story of the courage forged by terror in a man's heart.

People of the Deer Farley Mowat, 2004-11 A classic account of the degradation of a tribe of Canadian Indians focuses on the fate of the Ihalmiut people of Northern Canada who suffered cultural decline, food shortages, and outside exploitation throughout the twentieth century. Reprint.

Aftermath Farley Mowat, 1995 In the spring of 1953, Farley Mowat returned to Europe to retrace his wartime footsteps and search for peace. He returned to England and France - countries that less than a decade previously had been made weary under the weight of war. He returned to the nightmarish battlefields of Italy that had seen Canadian soldiers, his friends and comrades, fall in tragically high numbers. He wanted to see what the land - and its peoples - were like when the world was not a charnel house of mud, rain, metal and death. What he found was a world that was - after so many years of misery, tragedy, and destruction - overwhelmingly and energetically embracing life, nature and hope. Driving through Western Europe with his wife Frances, Farley Mowat begins his traveller's tale. He meets former French resistance fighters who, when they learn that he's a Canadian veteran, greet and fete him with food, drink and stories as if he were a long-lost

brother. He sees San Carlo, an Italian town practically levelled as the site of a horrifying battle in the winter of 1944, rebuilt and teeming with life, as if risen from the grave. He meets people shaped and changed by tragedy and yet determined to move forward. They tell Mowat the stories only the inhabitants of a war-zone can tell: stories of the evils of war and the courage, sacrifice and resilience of ordinary people. Farley Mowat also sees places still, but probably for the last time, untouched by the rapid progress of this last half century. In Kent, he is invited into a flagstone-floored Tudor brewery where, since the days of King Henry VIII, time and brewing methods have stood still. In Positano, a seaside fishing town where he spent some of his war years, Mowat watches firsthand as fishermen ply their trade as their ancestors did during the Roman Empire. Mowat paints an unforgettable portrait of ancient places on the cusp of unimaginable change. *Aftermath: Travels in a Post-War World* is vintage Mowat: lively, moving, heart-stopping and beautifully told. (1995)

A Literature Kit for Owls in the Family by Farley Mowat Marie-Helen Goyette, Farley Mowat, 2008 A Literature Kit. This is one of Farley Mowat's funniest books about a boy and two rescued owls named Wol and Weeps. Billy loves all animals. He has rats, mice, over thirty gophers and two dogs. It only seems natural that Billy and his friends search the sloughs and bluffs to find owlets. The boys rescue a pair of owlets from an untimely death and end up keeping them for over three years. The adventures Billy, his friends and the owls have together are not typical. Participating in the local Pet Parade, owls following him to school and having an owl arrive for dinner with a skunk are only a few funny incidents in *Owls in the Family*. The story is a hoot!

The Snow Walker Farley Mowat, 1977-10 Classic works by one of North America's greatest storytellers brought back to print in a new paperback series Inspiration for the major motion picture from Infinity Media and First Look International Central to Farley Mowat's writing is his quest to understand the often-forgotten native people of the vast arctic wilderness. In this moving collection, he allows these people to describe in their own words the adventures they experience as they struggle to survive in an isolated, untamed land. Stories of survival and courage, of superstition and fate, of uncompromising loyalty to family and tribe are presented here, offering a vivid portrait of a people whose existence is often beyond the comprehension of modern man.

Bay of Spirits Farley Mowat, 2009-01-13 In 1957, Farley Mowat shipped out aboard one of Newfoundland's famous coastal steamers, tramping from outport to outport along the southwest coast. The indomitable spirit of the people and the bleak beauty of the landscape would lure him back again and again over the years. In the process of falling in love with a people and a place, Mowat also met the woman who would be the great love of his life. A stunningly beautiful and talented young artist, Claire Wheeler insouciantly climbed aboard Farley's beloved but jinxed schooner as it lay on the St. Pierre docks, once again in a cradle for repairs, and changed both their lives forever. This is the story of that love affair, of summers spent sailing the Newfoundland coast, and of their decision to start their life together in Burgeo, one of the province's last

remaining outposts. It is also an unforgettable portrait of the last of the outpost people and a way of life that had survived for centuries but was now passing forever. Affectionate, unsentimental, this is a burnished gem from an undiminished talent. I was inside my vessel painting the cabin when I heard the sounds of a scuffle nearby. I poked my head out the companionway in time to see a lathesome young woman swarming up the ladder which leaned against Happy Adventure's flank. Whining expectantly, the shipyard dog was endeavouring to follow this attractive stranger. I could see why. As slim and graceful as a ballet dancer (which, I would later learn, was one of her avocations), she appeared to be wearing a gleaming golden helmet (her own smoothly bobbed head of hair) and was as radiantly lovely as any Saxon goddess. I invited her aboard, while pushing the dog down the ladder. "That's only Blanche," I reassured my visitor. "He won't bite. He's just, uh . . . being friendly." "That's nice to know," she said sweetly. Then she smiled . . . and I was lost. —From *Bay of Spirits*

No Man's River Farley Mowat, 2007-04-25 Master Storyteller Farley Mowat delivers a gripping account of an adventure in the far north, shared with a Métis trapper as the two men travel over a thousand miles by canoe. In the spring of 1947, Mowat joined a scientific expedition to the north, seeking a saner world. His companion Charles Schweder---a Métis trapper---provided Mowat with an entree into the ancient cultures of these native peoples, and he came to know their land and ways with an intimacy achieved by few strangers. His portraits are singularly moving and vivid, especially those of Schweder and his family, which includes two Inuit children. *No Man's River* is a rare glimpse into a lost world. Considering the deep identification of Canada's most popular living non-fiction writer with the country's Arctic regions, Mowat's description of his inaugural odyssey to the area in 1947 will entrance his fans. The affinity for animals so appealing to Mowat's writing is fully fledged in this chronicle, which is recommendation enough, yet the buddy motif makes this especially enjoyable. ---Booklist

The Dog Who Wouldn't Be Farley Mowat, 1999-07-01 This is the story about a dog and his boy. The boy was the author and the dog was Mutt. Clearly, Mutt believed that he could do better than just be a dog. Dogs weren't supposed to climb trees or ladders, but Mutt didn't care about that. And dogs weren't supposed to ride in the family's open car wearing goggles either, but Mutt liked wearing them and even knew how to adjust them with a careful paw. Whether he was fighting off other dogs by lying on his back and bicycling in the air as hard as he could, or tangling with owls, or geese, or cows, or ducks, or even skunks, Mutt was always full of surprises. Farley's mother originally bought Mutt as a puppy for only four cents. The adventures that Mutt brought to Farley, his mother and father and all of their friends, made him the biggest bargain of all time. His true story makes this a wonderful and very funny book for readers of all ages.

Born Naked Farley Mowat, 2013-06-14 Farley Mowat's outrageous memoir begins with his unlikely conception in a canoe and continues to his boyhood fascination with creatures of the natural world and on to his youthful rambles and adventures. To his immense pleasure and his parents' dismay, he adopted various beasts (whom he affectionately calls *The Others*) as roommates. In this boyhood memoir, he recounts the exploits of this second family, who have been the subjects of

many of his beloved books for young readers. This is the tale of a mischievous, immensely gifted young naturalist, recounted with the wisdom, humor and grown-up perspective of a very talented writer.

Best of Farley Mowat Farley Mowat, Key Porter Books Staff, 1998-09-08 Based upon the numerous books written by Canadian nature lover Farley Mowat, this anthology offers children a comprehensive mix of Mowat's highly respected prose and is illustrated throughout with black and white illustrations.'

High Latitudes Farley Mowat, 2012-08-01 Ideal for fans of *Master a Million* and *Blue Latitudes* Chronicles Mowat's hazardous 1966 journey across northern Canada A must-have for wilderness lovers Farley Mowat is a world-renowned author. More than 17 million of his books have sold, and the New York Times calls him a "master storyteller." In *High Latitudes*, Farley Mowat hoped to write a book that would let northern people speak for themselves and would expose the false view of the North as "a bloody great wasteland" with no people in it. That perspective led to resource developers abusing the land however they chose. For several reasons that Mowat explains, he did not write that book when he originally wanted to. At long last, here it is. Within its pages are the original conversations that Mowat recorded during his journey. Mowat is a natural and a master storyteller, which old fans will remember and new fans will quickly learn. In old-fashioned Mowat style, the legendary writer shares a glorious narrative filled with breathtaking nature writing, larger-than-life characters, suspenseful storytelling, pitiless rage, ferocious humor, compassionate concern, and iconoclastic insights. In her foreword, Margaret Atwood writes, "High Latitudes gives us, with passion and insight, a vertical section of time past—the time that preceded our present. The choices that were made then affect our now, just as the choices we make now will determine the future..."
