A Gutmann

Broadway Musicals David H. Lewis, 2015-10-05 Musicals have been a major part of American theater for many years, and nowhere have they been more loved and celebrated than Broadway, the theater capital of the world. The music of such composers as Rodgers and Hammerstein, Berlin, the Gershwin brothers, Lerner and Loewe, Steven Sondheim, and Andrew Lloyd Webber continues to run through people's minds, and such productions as South Pacific, Cats, My Fair Lady, The Phantom of the Opera, Guys and Dolls, Rent, and West Side Story remain at the top of Broadway's most popular productions. This book is a survey of Broadway musicals all through the 20th century, from the Tin Pan Alley-driven comedy works of the early part of the century, to the integrated musical plays that flourished in the heyday years of midcentury, and to the rock era, concept musicals, and the arrival of British mega-musicals late in the century. It also profiles some of the theater world's leading composers, writers, and directors, considers some of the most unforgettable and forgettable shows, illustrates the elusive fragility of the libretto, explains the compensating nature of production elements, and examines representative shows from every decade. An extensive discography offers a brief critique of more than 300 show cast albums.

Children, Childhood, and Musical Theater Donelle Ruwe, James Leve, 2020-02-19 Bringing together scholars from musicology, literature, childhood studies, and theater, this volume examines the ways in which children's musicals tap into adult nostalgia for childhood while appealing to the needs and consumer potential of the child. The contributors take up a wide range of musicals, including works inspired by the books of children's authors such as Roald Dahl, P.L. Travers, and Francis Hodgson Burnett; created by Rodgers and Hammerstein, Lionel Bart, and other leading lights of musical theater; or conceived for a cast made up entirely of children. The collection examines musicals that propagate or complicate normative attitudes regarding what childhood is or should be. It also considers the child performer in movie musicals as well as in professional and amateur stage musicals. This far-ranging collection highlights the special place that musical theater occupies in the imaginations and lives of children as well as adults. The collection comes at a time of increased importance of musical theater in the lives of children and young adults.

The Cinematic Challenge: Filming Colonial America John P. Harty, Jr., 2016 Why did cinema largely ignore the colonial era and the Revolutionary War? The Cinematic Challenge asks this question and studies four films from the 1930s and 1940s to consider other queries, such as: How did Darryl F. Zanuck make a film about the American Revolution (Drums

Along The Mohawk) without indicating that the British were the enemy? Why was Northwest Passage never completed? How did Cecil B. DeMille begin production on a film (Unconquered) based on a book that did not yet exist? In addition, we'll learn how accurate the depictions of colonial life were in each film and whether the political and economic climate affected the finished products. Volume one of The Cinematic Challenge also includes information about the general state of the film industry during this period, technological advancements, and rival theories about historical filmmaking, making it the most in-depth resource available today on colonial movies.

Gower Champion David Payne-Carter, 1999-03-30 Gower Champion's career spanned the years during which American musical theatre was transformed from a crude popular entertainment into a sophisticated art form. As the director and choreographer of *Hello, Dolly!*, *42nd Street*, and other Broadway musicals, he was central to that transformation. He came of age during the zenith of American musical theatre production and made his mark on both sides of the curtain. As a dancer, he gained notoriety through his work with Jeanne Tyler and Marjorie Belcher, and his experience as a performer gave him a solid foundation for his later success as an organizer of memorable productions. As a choreographer and director, he became known for spectacular numbers that blended dance, staging, and elaborate scenography. More than anyone else, he seemed to realize that the achievement of a musical depended on those spots where music, dance, lighting, costumes, and staging created a sustained narrative and emotional flow through sound and motion rather than words. This book provides the first extensive treatment of Champion's life and legendary career. The book falls neatly into two main sections. The first discusses Champion's career as a performer, with chapters on his early Broadway appearances and his work for MGM. Special attention is given to how his experiences as a dancer prepared him for the later half of his career. The second examines his work as a choreographer and director and is organized around the musicals with which he was involved. Each chapter consists of a history of one or more of those productions, from original concept to opening night and sometimes beyond, as Champion, ever the perfectionist, sought to improve on what everyone else thought was already perfect. The volume is fully documented, with basic historical research conducted at several special collections. In addition, the book is based on a careful analysis of Champion's scripts, which include numerous revisions and thus illuminate how he crafted his productions. Finally, the study depends on interviews conducted with various individuals who knew and worked with Champion throughout his impressive career.

Broadway Plays and Musicals Thomas S. Hischak, 2009-04-22 New York City's Broadway district is by far the most prestigious and lucrative venue for American performers, playwrights, entertainers and technicians. While there are many reference works and critical studies of selected Broadway plays or musicals and even more works about the highlights of the American theater, this is the first single-volume book to cover all of the activities on Broadway between 1919 and 2007. More than 14,000 productions are briefly described, including hundreds of plays, musicals, revivals, and specialty programs. Entries include famous and forgotten works, designed to give a complete picture of Broadway's history and development, its evolution since the early twentieth century, and its rise to unparalleled prominence in the world of American theater. The productions are identified in terms of plot, cast, personnel, critical reaction, and significance in the history of New York theater and culture. In addition to a chronological list of all Broadway productions between 1919 and 2007, the book also includes approximately 600 important productions performed on Broadway before 1919.
