Strange Andy Thomas, 2025-07-08 Every day, very ordinary people are having extraordinarily strange experiences. In one of the most insightful investigations ever published, using the most up to date evidence and refreshingly open-minded approaches, Strange reveals previously unrecorded true-life tales like these ... MEETINGS WITH GHOSTS: A new husband haunted by his predecessor ... a woman receiving a visit from her friend, not knowing the friend is now dead ... a child's face peering out from a sofa ENCOUNTERS WITH UFOS: Police pursuing balls of light in a car chase across country roads ... Nuclear power station workers watching craft arise from beneath the sea ... A couple "called" into their garden to witness an uncanny display PSYCHIC EXPERIENCES: A soldier whose out-of-body experience enables him to be retrieved alive from battlefield carnage ... A psychic experiment so intense that a glass smashes against a wall ... A military officer whose premonition saves his colleagues from being caught in an invasion BIZARRE HAPPENINGS: A woman whose car is unexpectedly flown into the sky by an invisible force ... Crop circles that materialise unseen just metres away from

bystanders ... A timeslip that sends a delivery truck back into the early 1900s Sceptics dismiss all such encounters - but what if they are wrong? What unconventional causes could be behind such astounding experiences and what are the huge implications? Will new AI-enhanced revelations turn humanity's entire understanding of reality upside down? Strange demonstrates that it is time to take an important new look at anomalous phenomena.
