

Cuadro Ciencia Y Caridad

Jose Rafael Vilar

Viaje a Través De La Historia De La Danza Jose Rafael Vilar, 2011-12-16 JOS RAFAEL VILAR VIAJE A TRAVÉS DE LA HISTORIA DE LA DANZA Este pequeño libro surgió de la falta de un texto, accesible y en castellano, para que mis alumnos de historia de la danza pudieran ampliar sus conocimientos, por lo que este podrá servir a muchos lectores, artistas en formación o profesionales o simplemente aficionados con interés en este hermoso arte, para conocer y disfrutarlo mejor, porque cuando se conoce de dónde surge una obra o cómo era su entorno, se la disfruta mejor. La danza es un arte que está siempre presente en nuestras vidas, desde las cuevas en la comunidad primitiva, y ha estado indisolublemente ligada a cada etapa de la historia, ya sea como danzas religiosas, de salón o de escena o, sencillamente lúdicas. En este libro viajaremos por sus orígenes en la prehistoria, cuando el gesto y la necesidad de comunicarnos se unieron; conoceremos la danza mágica y Los Misterios; recorreremos el Renacimiento y los bailes de salón; pasaremos por el barroco hasta llegar al Ballet comique de la Reine; encontraremos a Noverre y Angiolini; llegaremos con La fille mal gardée al Romanticismo y seguiremos con Giselle, ou Les willis; iremos a Rusia con el Clasicismo y Petipa y Tchaikovsky, disfrutando de El lago de los cisnes y Don Quixote; después, asistiremos a la revolución de Diaghilev-Fokin-Nijinsky-Stravinsky y admiraremos Petrushka y La consagración de la primavera y conoceremos las distintas escuelas; y concluiremos nuestro viaje en las danzas moderna y contemporánea. Este libro es escrito para Ud., para que disfrute la danza. Es mi mejor deseo.

Historia General Y Del Arte. Prueba Específica. Prueba de Acceso a la Universidad Para Mayores de 25 Años.e-book María Dolores Santana, 2002-11-28

Del capitalismo al talentismo Juan Carlos Cubeiro, 2012 BIENVENIDO A LA NUEVA ERA Peter F. Drucker, en La sociedad postcapitalista, escribía que en el postcapitalismo el factor clave de la producción ya no es el capital, ni la tierra, ni el trabajo, sino el conocimiento, y que en esta nueva sociedad las clases sociales están formadas por los trabajadores del conocimiento y los trabajadores de los servicios. Juan Carlos Cubeiro parte de esta premisa para analizar con detalle el cambio de ciclo, esto es, el tránsito del capitalismo hacia el talentismo, al tiempo que analiza las claves que todo directivo, empresario o profesional debe conocer, y aplicar, para triunfar en esta nueva era. Tal y como describe el autor en el presente ensayo, al capitalismo-el régimen económico y social fundado en el predominio del capital como elemento de producción y

creación de riqueza-, le sustituye el talentismo-el sistema económico y social en el que el talento es más escaso (y por tanto más valioso) que el capital-. Tras analizar las cuestiones de fondo que motivan el cambio de era, Cubeiro describe todas las cuestiones fundamentales para triunfar en este nuevo período en el que se requiere un cambio de actitud, nuevos valores, aplicar otro enfoque en lo económico -más economía conductual y más bien común-y nuevas competencias laborales y profesionales. Y es que las reglas del juego han cambiado. O, en palabras de Marshall Goldsmith, reputado coach de Estados Unidos y homólogo de Cubeiro en España e Iberoamérica, lo que te ha traído hasta aquí no te llevará de aquí en adelante.

En Femenino Voces, Miradas, Territorios Montserrat Villarino Pérez, Ofelia Rey Castelao, Rocío Sánchez Ameijeiras, 2008 Abarca un rico espectro de temas y puntos de vista: características poblacionales y dinámicas de las sociedades rurales, historia social, militar y política de las épocas moderna y contemporánea, la representación del cuerpo femenino en el arte y la publicidad...

Hablar de la muerte para vivir y morir mejor (Edición mexicana) Montse Esquerda, 2023-03-16 Nuestra sociedad moderna occidental vive de espaldas a la muerte. En apenas dos generaciones, los ritos y símbolos con que antes se acompañaba han desaparecido, convirtiendo la muerte en tabú. Aunque creamos que así somos más felices, esta conducta provoca dolor y sufrimiento añadido, pues aleja de la sociedad a las personas que viven la experiencia de la muerte y el duelo condenándolas a la soledad, impidiéndoles que encuentren espacio, referentes o rituales. La autora repasa cómo ha cambiado nuestra relación con la muerte a lo largo del tiempo a través de datos históricos, artículos de psicólogos, psiquiatras, bioeticistas y filósofos, fragmentos de novelas, canciones y películas. Desde una perspectiva médica, pero sobre todo humana, Montserrat Esquerda analiza cómo hemos convivido con la conciencia de la finitud y pone sobre la mesa otro tema incómodo: señala que la medicina se ha volcado en curar, olvidando que uno de sus objetivos primordiales debería ser intentar una muerte en paz y paliar el sufrimiento que la acompaña. Este libro nos recuerda la importancia de tener presente nuestra finitud, no solo en nuestra esfera personal sino en nuestras relaciones con los demás. Porque la ausencia de conversaciones sobre este tema en la vida cotidiana o cuando aparece una enfermedad grave en un familiar, la desaparición de los niños en los rituales de despedida y velatorios y la falta de preparación provocan que vivamos con mayor estrés y caos la inevitable experiencia de la muerte. Todos vamos a morir algún día y, antes, vamos a vivir el duelo por la pérdida de alguna persona querida. Tener referencias sociales, culturales y familiares será de gran ayuda cuando llegue el momento.

Debemos recuperar esa familiaridad con la muerte por nuestro propio interés, y es una tarea colectiva. Empecemos leyendo este libro y atrevámonos a derribar otro tabú.

Picasso joven Pablo Picasso, 2002 Los años pasados por Pablo Picasso en A Coruña han hecho de la ciudad un punto de referencia en la biografía y carrera artística de uno de los artistas que revolucionaron el lenguaje artístico del siglo XX. En A Coruña el mito Pablo Ruiz Picasso, de la mano del profesor de Dibujo de Figura y Adorno de la Escuela de Bellas Artes José Ruiz Blasco, su padre, emprende su formación de pintor. A Coruña va unida al inicio de sus primeros contactos con la enseñanza académica. Aquí da comienzo un aprendizaje sólido y riguroso, en el que los tanteos dibujísticos iniciados en Málaga ganan en oficio y cimientan una sólida formación académica.

Los Sorolla de Valencia Javier Pérez Rojas, Joaquín Sorolla, 1996

Historia intelectual del siglo XX Peter Watson, 2002-02-13 La historia del siglo XX se reduce habitualmente a una sucesión de guerras y desastres, pero se suele olvidar que ha sido también una época de grandes avances científicos y de una extraordinaria floración en el campo del pensamiento y del arte. Peter Watson se aparta de la visión convencional del siglo para completarla con el contrapunto de sus grandes progresos intelectuales, en una deslumbrante sucesión de ideas y argumentos que se inicia en 1900 con Freud, Planck o Picasso y que llega hasta nuestro propio tiempo, hasta la biotecnología, el postmodernismo o internet, y hasta pensadores tan diversos como Stephen Hawking o Vidia Naipaul. La historia del siglo XX suele contarse como una sucesión de guerras y desastres que justifican que se lo describa habitualmente como una época sombría de muerte y de atrocidades. Pero esto no lo es todo. Más allá de las dictaduras y del exterminio, el siglo ha sido también una época de grandes avances científicos y de una extraordinaria floración en el campo del pensamiento y del arte. El propósito de Peter Watson ha sido apartarse de la visión convencional para completarla con el contrapunto de los grandes progresos intelectuales de un siglo en que la ciencia ha transformado nuestra manera de ver y entender el mundo, y en que las artes y el pensamiento han traído conjuntamente lo que Yeats describió como «una terrible belleza». Esta fascinante historia comienza en 1900, el año en que se publicó La interpretación de los sueños de Freud, en que Evans descubrió los palacios minoicos de Creta, en que Planck inició la física cuántica, en que Picasso llegó a París... y prosigue en una deslumbrante sucesión de argumentos y de ideas, hablándonos de la ciencia, del arte, de la filosofía, de la literatura, del cine, de la música, etc., en una perspectiva realmente universal, que abarca desde el Concilio Vaticano II a la revolución cultural china, y que llega nuestro propio tiempo, para hablarnos de la teoría de cuerdas, de los orígenes y desarrollo de internet, del postmodernismo o de las aportaciones de hombres tan diversos entre sí, pero de tan considerable influencia en la formación de las ideas del mundo en que vivimos, como Stephen Hawking y Vidia Naipaul.
