God of River Mud Victor Maynard Sizemore, 2024 Grappling with innate desires and LGBTQ identity, a family struggles under the oppressive expectations foisted on them by fundamentalist Christianity--

The Only Possible Evidence for a Demonstration of God's Existence Immanuel Kant, 2024-05-09 Kant's *Der einzig mögliche Beweisgrund zu einer Demonstration des Daseyns Gottes* is an 1763 Königsberg treatise in which the then-precritical Kant tackles the classic question of God's existence with a striking twist. It was issued by Johann Jakob Kanter in Königsberg, when Kant was still working in the Leibnizian-Wolffian tradition of German rationalism. In this early work Kant scrutinizes traditional proofs of God (for example, the ontological argument and the argument from design) and claims to find "the only possible" way to demonstrate God. Curiously, he ends by noting that one need only be convinced of God's existence, not force a strict demonstration. This pamphlet thus stands at a turning point: Kant ventures boldly into natural theology but already hints that reason can only carry us so far. In the first part of the document, Kant embarks on a meticulous examination of metaphysical necessity, a central concept in arguments for the existence of a Supreme Being. Here, he explores the distinction between what is absolutely necessary and what is contingent in depth. This exploration is crucial because it lays the groundwork for arguing for the existence of a necessary being rather than a contingent one. The second part examines specific attributes traditionally ascribed to a divine being, such as omnipotence, omniscience, and moral perfection. Kant critically analyzes these attributes, discussing their coherence and implications for the concept of a supreme being. This analysis is essential for understanding the nature of the being whose existence the treatise seeks to demonstrate. The third section examines the logical structure underlying the argument for God's existence. It involves dissecting ontological and cosmological arguments and assessing their validity and soundness within the realm of philosophical reasoning. In historical context, *Beweisgrund* belongs to Kant's "dogmatic" or pre-critical phase, when he sought to build a metaphysical system à la Leibniz and Wolff rather than criticize pure reason. The Enlightenment of the 1760s was rich in natural theology, and Kant was conversant with his predecessors: the German rationalist Christian Wolff, his mentor Crusius (from whom he adopted the idea of grounding possibility in actual substances), and the "proofs" of God offered by Anselm, Descartes and others. Kant explicitly examines these antecedents. In effect he modifies the ontological argument: he starts from the concept of being and possibility, noting (as a later summary puts it) that "all possibility presupposes something

absolutely real or necessary... this absolutely necessary [reality] is God". In other words, Kant reasons that if we imagine anything possible, its possibility must rest on something actually real. He criticizes the standard arguments for falling short of a full demonstration, and from there turns to what he regards as the viable proof grounded on necessity. Kant's core move is this: he argues that the "internal possibility" of any thing implies some actual ground. If negating a certain entity would destroy all possibility, then that entity must be absolutely necessary. In his words, "the cancellation of [that reality] would itself cancel all internal possibility whatever. But that, the cancellation of which eradicates all possibility, is absolutely necessary". Hence "something exists absolutely necessarily". From this Kant infers that there can only be one such necessary being, for if two different things were both "absolutely necessary," each would depend on the other - a contradiction. He further shows that this necessary being must be simple (not composed of parts) and cannot change: its non-existence is impossible, so it is eternal and immutable. In short, Kant identifies this being with God. Finally Kant explores what attributes this God must have. He concludes that the necessary being contains "the highest reality" - in fact it is "the most real of all possible beings," since all else is possible only through it. He clarifies, though, that one must not confusingly predicate every conceivable property of God at once: some attributes (for instance, spatial extension or bodily force) cannot coherently inhere in the same subject as intellect and will. Rather, all perfections of reality are encompassed by God either as his essential determinations or as consequences flowing from him. At the end of the text Kant remarks that while one should be certain of God's existence, one need not demand a formal demonstration. (Indeed, this cautious note foreshadows Kant's later critical turn.) The Only Possible Argument... thus articulates a novel combination of Leibnizian necessity and Wolffian logic: it locates the grounds of all possibility in a single necessary being - a God who is unique, simple, eternal and supremely real.

Canoeing with the Cree Eric Severeid,2010-08 In 1930 two novice paddlers?Eric Severeid and Walter C. Port?launched a secondhand 18-foot canvas canoe into the Minnesota River at Fort Snelling for an ambitious summer-long journey from Minneapolis to Hudson Bay. Without benefit of radio, motor, or good maps, the teenagers made their way over 2,250 miles of rivers, lakes, and difficult portages. Nearly four months later, after shooting hundreds of sets of rapids and surviving exceedingly bad conditions and even worse advice, the ragged, hungry adventurers arrived in York Factory on Hudson Bay?with winter freeze-up on their heels. First published in 1935, *Canoeing with the Cree* is Severeid's classic account of this youthful odyssey. ?Praise for *Canoeing with the Cree* ?*Canoeing with the Cree* is an all-time favorite of mine. ?Ann Bancroft, Arctic explorer and co-author of *No Horizon Is So Far* ?Two high school graduates make an amazing journey . . . showing indomitable courage that carried them through to their destination.
