

Il Cretto Di Burri

Thomas Griffiths

Performing Ruins Simon Murray, 2020-08-17 This book engages with the relationship between ruins, dilapidation, and abandonment and cultural events performed within such spaces. Following the author's fieldwork in the UK, Bosnia Herzegovina, Poland, Germany, Greece, and Sicily, chapters describe, investigate, and reflect upon live performance events which have taken place in sites of decay and abandonment. The book's main focus is upon modern economic ruins and ruins of warfare. Each chapter provides several case studies based upon the author's own site visits and interviews with actors, directors, producers, curators, writers, and other artists. The book contextualises these events within the wider framework of Ruin Studies and provides brief summaries of how we might understand the ruin in terms of time, politics, culture, and atmospheres. The book is particularly preoccupied with artists' reasons and motivations for placing performance events in ruined spaces and how these work dramaturgically.

Florence, Venice & the Towns of Italy Robert Kahn, 2001 If a standard guidebook has never revealed the Italy you seek, let City Secrets show you the way. See the glorious art and architecture of Italy's villages and cities through the eyes of the people who know them best: an architect leads you through a hidden Florence passageway built for the Medici; a novelist points out the panoramic vistas that inspired St Francis; the most renowned of Italian cooks divulges her favourite Venetian eateries; and an artist directs you to the courtyard of a Renaissance convent, where you will ring for access to the frescoes - and a miraculous handprint - that lie within.

Burri inedito. Ediz. italiana e inglese Maurizio Calvesi, 2000 In 1952 an Umbrian artist scandalized art critics worldwide with burned wood, flame-red paintings, dramatic combustions of plastics, and a black that was the color of tar: his name was Alberto Burri (Citta di Castello 1915 - Nice 1995), one of the greatest artists of all times. This book sets out to reveal many of his works that have remained unknown until today.

Sensi/able Spaces Edward H. Huijbens, Ólafur Páll Jónsson, 2021-02-19 The book SENSI/ABLE SPACES focuses on the ways in which space, art and the environment interlace and interact, dealing with the perception and conception of spaces in the built as well as natural environment. The book brings together a wide range of academics, from the physical sciences, social sciences and humanities, as well as artists who have an interest in the way space is sensed, understood and reconfigured. Spaces today are continually being reconstituted and reformulated in various ways, often relying on notions of

what is sensible, narrowly defined by groups with an ideological agenda of some kind or vested economic interests. These sensible factors often obscure and ignore notions of the sensible-that which people perceive through the senses while being-in spaces. Space is a topic equally of various academic fields, such as geography, philosophy, sociology, anthropology, physics, biology, and many more. But space is also the subject of - or a frame for - any artist, whose work is neither academic, in any standard sense of the term, and yet heavily theoretical or speculative.

Meridiana 88: Cause perdute Autori Vari, 2017-08-02T00:00:00+02:00 Il passato ritorna sempre più forte e in forme originali. Negli ultimi anni si è moltiplicato il numero di programmi dei media tradizionali, la produzione di materiali sui social e su internet, l'attività di appassionati di storie locali e regionali, l'impegno di cultori di ricostruzioni storiche. Un fenomeno spinto da tendenze e obiettivi diversi, se non opposti, sempre mosso dalla ricerca, all'interno dei processi storici, di miti ed eroi, momenti gloriosi o primati, episodi importanti o semplicemente fatti colorati dal fascino dell'antico. Negli anni ottanta e soprattutto nei novanta, il fenomeno è diventato visibile in grandi dimensioni, stimolato dal declino delle appartenenze ideologiche della guerra fredda e dalla rivoluzione della comunicazione e del digitale, che ha moltiplicato la forza narrativa e di spettacolarizzazione del passato. Lo spazio pubblico è invaso dal recupero, o dallo scontro, sulla memoria. Le cause perdute sono una forma di queste rielaborazioni del passato. Molte società, stati, gruppi politici hanno conosciuto situazioni drammatiche o fratture radicali che hanno segnato la distruzione o la sconfitta irrimediabile di alcuni attori. Per sopravvivere a questa disgrazia, un settore della società reagisce generando strategie di sopravvivenza simbolica che producono una cultura dei vinti e, in maniera più o meno efficace, identità collettive centrate su un trauma fondante. Questo fenomeno complesso di correnti culturali e intellettuali forgia e rielabora immagini e interpretazioni del passato. Prendono così forma le cause perdute: disegni fatidici e aspirazioni frustrate che captano l'immaginazione, accendono le passioni, suscitano simpatie e sviluppano identità collettive. Questo numero si concentra su casi che hanno prodotto strutture retoriche di questo tipo, focalizzando l'attenzione in particolare sulle relazioni tra alcune cause perdute e le guerre civili, vale a dire su esperienze nelle quali la conclusione dei conflitti ha segnato la formazione degli stati moderni, o la loro rifondazione. Queste cause perdute mischiano il presente e la memoria, ma ne offrono una versione originale e accattivante, perché figlia di fratture radicali come le guerre civili ottocentesche o le vicende dei bianchi russi o dei nazionalisti cinesi nel Novecento. Drammatiche sconfitte mai ribaltate, rese affascinanti proprio dai colori della tragedia epica, che riemergono con minore o maggiore successo in forma di rivincita del passato. Possono riapparire da un tempo secolare, come nel caso delle origini del borbonismo napoletano, o limitarsi ad analisi intellettuali, come in quello dei socialisti rivoluzionari russi dopo la sconfitta nella rivoluzione. Ancora possono ritrovare le radici in una lunga storia di rielaborazione romantica patriottica, come nel caso del catalanismo, o giusti carsi in una originale esperienza di riconciliazione nazionale, come in quello dei confederati. Si tratta anche di vicende tra loro diverse, ma capaci di durare fino al XX secolo inoltrato, come nel caso dei

carlisti spagnoli o in quello dei fascisti italiani. Una causa perduta, in quanto esito di una sconfitta drammatica e irreversibile, genera un risentimento collettivo e un ripensamento radicale, producendo repertori ideologici e culturali in grado di persistere nella memoria, o di venire recuperati in particolari congiunture.
