Contracts in the Real World Lawrence A. Cunningham, 2016-02-24 Contracts, the foundation of economic activity, are both vital and misunderstood. Contracts in the Real World, 2nd edition corrects common misunderstandings through a series of engaging stories involving such notable individuals as Martin Luther King, Maya Angelou, Lady Gaga, and Donald Trump. Capturing the essentials of this subject, the book explores recurring issues in contracting and shows how age-old precedents and wisdom still apply today and how contract law's inherent dynamism cautions against exuberant reforms. The accessible yet rigorous approach will appeal to the general reader and specialists alike, and to both teachers and students of contracts.

Contracts, third edition Randall Kennedy, 2023-04-11 A casebook to be used as the primary text for first-year law school contracts courses, written by a leading scholar in contract law. Renting a home, buying a ticket, downloading an app—humans enter into contracts constantly, often with little consciousness of the legal implications. We typically become alert to the consequences only when a problem arises. Contracting can increase our happiness by enabling us to do things that we would be otherwise unable to do, but heartbreak follows when things go wrong. This casebook, which can be used as a primary text for a first-year law school contracts course, covers a wide spectrum of quandaries that emerge in contract law, from problems of overreach and interpretation to enforcement and fraud. Taken together, these cases offer an exploration of contract pathology and introduce students to concepts that are essential to understanding the vast subject of Anglo-American contract law. This book is part of the Open Casebook series from Harvard Law School Library and the MIT Press. Primary text for a first-year law school contracts course Developed for use at Harvard Law School by a leading scholar in contract law Diverse cases show differing approaches to a range of problems within contracting Classroom tested

The Legal Environment of the New Millennium Samuel D. Hodge,2001 This book includes the standard matter covered in a Legal Environment of Business text including a discussion of Cyberlaw and ethical issues. The format differs, however, by including cutting edge cases, cases that have been decided in the past few years or matters involving the legal disputes of the rich and famous. For instance, a student will learn about punitive damages by reading about a case involving Whitney Houston. Domain name disputes will focus on litigation involving Madonna and Sting. The enforcement of an arbitration agreement deals with Latrell Sprewell and his assault of the head coach of the player's former basketball team. It is believed this approach will stimulate interest in the materials since the players in the litigation will be well known to the general public and students will enjoy learning about the legal exploits of these famous people. In addition, the book follows the legal problems of a family during the semester in which a series of written problems are presented in order to stress legal analysis and writing.
