**Higher Education's Looming Collapse** Stephen V. Coffin, 2021-08-15 Higher education must implement new ways of achieving social justice and performing the business of education to survive the impending shakeout stemming from increasing competition for enrollment, operating costs, and price sensitivity plus decreasing state aid, net tuition, endowment income, and college-bound high school graduates. Universities that survive the shakeout will achieve financial sustainability, educational excellence, and social justice while providing equal educational opportunity and resource equity by implementing the book's best practices, strategies, and holistic budgeting model.

**African Traditional And Oral Literature As Pedagogical Tools In Content Area Classrooms** Lewis Asimeng-Boahene, Michael Baffoe, 2013-12-01 For a long time, many American educators and educational stakeholders have drawn their ideas for educational reforms from ideas generated in Europe and Asia for the changing demographics of America's diverse classrooms. This book is therefore motivated by a bold attempt at advocating for the revision of existing pedagogic fora and the creation and addition of new fora that would provide for the inclusion of thoughts, perspectives and practices of African traditional oral literature in the pedagogical tools of content area classrooms especially in North America. The articles that are presented in this book provide theoretical frameworks for using African traditional oral literature and its various tenets as teaching tools. They bring together new voices of how African literature could be used as helpful tool in classrooms. Rationale for agitating for its use as ideal for pedagogic tool is the recurrent theme throughout the various articles presented. The book explores how educators, literacy educators, learners, activists, policy makers, and curriculum developers can utilize the powerful, yet untapped gem of African oral literature as pedagogical tools in content area classrooms to help expand educators repertoire of understanding beyond the 'conventional wisdom' of their pedagogic creed. It is a comprehensive work of experienced and diverse scholars, academicians, and educators who have expertise in multicultural education, traditional oral literature, urban education, children's literature and culturally responsive pedagogy that have become the focus of U.S. discourses in public education and teacher preparation. This anthology serves as part of the quest for multiple views about our 'global village', emphasizing the importance of linking the idea of diverse knowledge with realities of global trends and development. Consequently, the goal and the basic thrust of this anthology is to negotiate for space for non-mainstream epistemology to share the pedagogical floor with the mainstream template, to foster alternative

vision of reality for other knowledge production in the academic domain. The uniqueness of this collection is the idea of bringing the content and the pedagogy of most of the genres of African oral arts under one umbrella and thereby offering a practical acquaintance and appreciation with different African cultures. It therefore introduces the world of African mind and thoughts to the readers. In summary, this anthology presents an academic area which is now gaining its long overdue recognition in the academia.

**Black and White** Pat Brown, Dave Brown, 2021-02-02 Criminal profiler Pat Brown and her business owner son, Dave Brown, are horrified at what is happening to the legacy of Martin Luther King, Jr. After being refused permission to join Meetup groups in her area because she was not a person of color, Pat, a white woman with a biracial son, created a fake Meetup group. It was called "White Women Yoga" in order to test the new concept that racial segregation is now alright in America and the Civil Rights Act of 1964 is no longer in operation. All hell broke loose; liberals were indignant that a white person would dare have a whites-only group and called her racist, a Nazi, a white supremacist, while at the same time praising black-only groups for having "safe spaces." Pat and Dave are mother and son, white and black, and they are dismayed at how our country is going backward in race relations. They believe the Democratic Party and the push for socialism is making this happen. Pat has spent almost twenty years in the media, giving crime commentary on almost every cable news channel on a regular basis, while Dave has always been fascinated with our political and economic systems. When the war against conservatives came into full swing during the Trump administration, when black and white conservatives were being painted as racists and white supremacists, mother and son came together to fight back. This book is about their journey as people of two different races, and how the great progress made in race relations and black lives is being torn apart by the Left. Conservatives must continue to fight for our country if we are to keep America great and free for people of all races.

*Don't Call Us Girls* Barbara Leonora Tischler, 2024-11-30 In a collective voice calling for peace tracing back to pre-World War II, *Don't Call Us Girls* follows the protests of women and their allies from the White House to the Arc de Triomphe, heralding their impact on today's world. *Don't Call Us Girls* examines the importance of women's participation in the Civil Rights Movement in the United States, and the international anti-war movement. This collective voice for peace, and an end to nuclear proliferation, reached back to before the Second World War and then firmly embedded itself during the war years when women assumed such important roles in the workplace that Franklin D. Roosevelt called them the 'Arsenal of Democracy'. When the men returned from war, women were encouraged by forces as powerful as government agencies and eminent psychiatrists to return to their 'place' at home. And return home they did, only to realize that they could use the skills they practiced as housewives to begin organizing themselves into groups that would start a wave of protest action that swept through the late 1950s, gathering up the Civil Rights Movement as it hurtled ever forward through the next two decades. In the 1960s and 1970s, no institution or convention was sacred—many aspects of women's lives were fair game for criticism, protest, and change. In this no-holds-barred era, women debated everything from international nuclear policies, pay equity and child care for women, to reproductive rights and sexual politics. They protested in the streets, outside the White House, in Trafalgar Square, at the Arc de Triomphe, on university campuses, and just about anywhere else they would be heard. They were tired of the role society had cast for them and they would not rest until they saw the substantial change that seemed promising with the emergence of Second Wave Feminism in the 1970s. While we still live in a patriarchal society, we have these women to thank for many of the freedoms we now enjoy. If they have taught us anything, it is never to stop pushing back against the patriarchy and to rest only when we are truly equal. The final chapter of *Don't Call Us Girls* reminds us that there is still a lot of work to do.
