**Crossing Boundaries in Early Judaism and Christianity** Kimberley Stratton, Andrea Lieber, 2016-10-11 This volume celebrates the scholarship of Alan Segal. During his prolific career, Alan published ground-breaking studies that shifted scholarly conversations about Christianity, rabbinic Judaism, Hellenism and Gnosticism. Like the subjects of his research, Alan crossed many boundaries. He understood that religions do not operate in academically defined silos, but in complex societies populated by complicated human beings. Alan's work engaged with a variety of social-scientific theories that illuminated ancient sources and enabled him to reveal new angles on familiar material. This interdisciplinary approach enabled Alan to propose often controversial theories about Jewish and Christian origins. A new generation of scholars has been nurtured on this approach and the fields of early Judaism and Christianity emerge radically redefined as a result.

*Monarchianism and Origen's Early Trinitarian Theology* Stephen Waers, 2022-05-16 This book argues that Origen's early Trinitarian theology cannot be understood apart from his engagement with monarchianism. After providing a detailed, synthetic account of monarchianism in the early third century, the book considers Origen's response to monarchianism alongside the responses of his rough contemporaries. Specifically, the final chapters address the question of Origen's subordinationism. When viewed in his contemporary context and not through the anachronistic lens of Nicene theology, this study argues that Origen's so-called subordinationism was an intentional anti-monarchian polemic strategy.

The Community of Eternal Life David Asonye Ihenacho, 2001 The Community of Eternal Life is a work which employs a

peculiar exegetical methodology of a four-level reading of the text to demonstrate the fact that the vision of eternal life played a key role in holding together the disparate groups that lie behind the Fourth Gospel and the three Johannine epistles. To demonstrate this claim, David A. Ihenacho embarks on an in depth consideration of the thematic nature of the Johannine idea of eternal life, an examination of the integrative power of the Johannine concept of eternal life and the implication of its exegetical and theological contents. Ihenacho then advances from a historical consideration of the eternal life texts, to sociological and literary considerations, and finally to a theological consideration.
