CONFIDENCE HAS LEFT THE GROUP CHAT Dr. Noah V., 2025-11-25 Confidence Has Left the Group Chat is a conversation designed to help readers rebuild their self-esteem in a world obsessed with external validation. Dr. Noah V. argues that our sense of self-worth, once built from the inside out through character and competence, is now being constructed from the outside in via likes and follows. The book dissects the Silent Code of Comparison and the Internalized Algorithm—the inner critic that judges our lives based on their post-ability rather than their reality. It exposes the Museum of Me we curate online and the resulting lonely crowd where connectivity has replaced true connection. Ultimately, it offers a roadmap for an Inside-Out Rebuild, guiding readers to find value in their un-post-able hobbies, embrace their B-roll moments, and earn confidence through private competence rather than public performance.
